Beavers Lose to Mountaineers, 93-84; Coach Raps 'Unbelievable' Officiating

OP Staff to Resume Publishing Next Week

Officers of Help, New 'Spirit' Are Cited

By Don Langer

Observation Post will resume publication next week. The decision was reached Friday after a special meeting attended by present and former members.

The newspaper had announced it would cease functioning in its tenth anniversary issue which appeared last Wednesday.

At a meeting held last Thursday, the old managing board by majority vote reaffirmed its decision to resume publishing. However, several members held dissenting opinions and urged the continuance of the paper.

New Elections

Friday's meeting was called by board members who were determined that the paper should and would return. At the meeting, the managing board officially resigned and new elections were held.

According to a member of the board, a feeling that the paper should return pervaded the meeting and it was not necessary to take an actual vote.

Members of the old board, however, were unwilling to reassume editorial positions. They felt the pressures which led to the original decision were still existent and would make it equally impossible to do an adequate job if they returned.

The new board attributed the decision to what it termed "a complex of factors." A "belief in the advantages of two newspaper systems" was cited.

Problems Still Present

David Gross '58, who was elected editor-in-chief at Friday's meeting, stated that the same difficulties which precipitated the original crisis were still present, but expected the major problem of inadequate personnel to be overcome "by taking advantage of the many offers of help that were extended."

The managing board members are confident that the paper could resume publication.

Economics Dept. Professor Denies 'Collectivist' Charge

By Jack Schwartz

Charges that the Department of Economics at the College is under the control of "collectivists" were labeled "absurd" yesterday by a spokesman for the Department.

Prof. Edwin Reubens (Economics) contended that the allegations were not based on fact and "were absurd chiefly because it is impossible to discover what the charges really mean."

The accusation was aired Saturday by Richard O'Malley, an Evening Session student, at an educational conference sponsored by Aware, Inc., a private organization devoted to fighting communism in entertainment, communications, and the fine arts.

O'Malley, a former editor of Catholic Views, an Evening Session publication, did not elaborate on his accusation at the meeting except to add that he had not taken any

Mounties Surge After 3 Out For Lavender on Fouls

By Bernie Lefkowitz

EMMITSBURG, Md., March 4. — The College's basketball team was ambushed, far from home, here last night, as the Beavers bowed to Mt. St. Mary's College, 93-84, in the first round of National Collegiate Athletic Association tournament play.

The Lavender was literally sunk by the Mounties' free-wheeling offense and the poor home-area officiating. Beaver coach Dave Polansky termed the officiating, "unbelievably bad." "They were definitely the worst calls that I have ever seen," he said.

Beavers Hit 38 Percent

Hitting on 25 of 68 shots from the floor, the Beavers registered 38 percent. The Mountaineers, equally accurate, connected on 31 of 81, for the same percentage.

Jack Sullivan tallied the first score for Mt. St. Mary's. Then Ralph Schefflan and Jim Mazzaferro combined on jump shots to give the Lavender a 4-2 lead. With Bill Williams and Joe Marshall leading the way, the Mountaineers roared back and regained the lead at 8-4, early in the first quarter.

The Beavers knotted the count at 8-8 but with the highly touted Sullivan hitting on jump shots and one-handers, the Mounties moved to a 27-20 lead with five minutes to go in the half.

At this point, the Beavers came alive, and within three minutes had tied the score at 27-27. The teams traded baskets for the remaining two minutes and the Mountaineers left the court at half time holding a slight 36-35 lead.

Levy Fouls Out

In the opening minutes of the first half, both teams traded baskets, with neither able to gain more than a three point advantage. But with seven and a half minutes left in play, Beaver high-scorer, Syd Levy, fouled out. The Lavender woes were compounded a few minutes later as the fifth technical foul was charged to Joe Bannardo, who had tallied twelve points and played a strong game in the backcourt.

Then, with four and one half minutes remaining, and the Lavender ahead, 68-67, Sullivan made three long distance jump-shots. After Sullivan's barrage and two fouls by Burt Scheing, the Mounties led, 77-72.

The straw that broke the Beavers' back came a moment later when Bob Silver was charged with his fifth personal foul. Silver's rebounding, combined with expert ball-hawking by Stan Friedman and Bill Lewis,

almost pulled it out for the Lavender in the waning minutes of the game.

In addition to combatting the officiating, the Lavender also had to contend with Sullivan, who chipped in with 36 points, Tom Leonard, a 6-5 forward, and Bill Williams, with 14 and 12 rebounds, respectively, controlled the backboards for the Mounties in the last stanza.

For the more than two hundred Beaver rooters, the deciding play was a technical foul called on Ralph Schefflan, the College's second high scorer.

Wider Powers Urged for Court At SC Meeting

Student Council endorsed last Wednesday five principles designed to strengthen the Student Court.

Suspension was a key word in the proposals which await final approval by the Student Faculty Committee on Student Activities and the General Faculty Committee on Student Activities.

A letter to SFCSA embodying Dean James S. Peace's recommendations on the proposal is being formulated.

- The principles adopted were:
- That the Student Court be given the power to temporarily suspend a student from any and/or all extracurricular activity for a definite period of time.
 - That the Student Court be given the power to suspend an organization from the use of any facilities on campus.
 - That the Student Court be given the power to recommend to SFCSA the suspension of a charter of any organization on campus.
 - That the Student Court be given the power to issue cease and desist orders to any student organization.
 - That the Student Court be given the power to recommend suspension of a student at the College.

If the proposals are given final approval, SFCSA and GFCSA will act as appeals bodies in the event that Student Court decisions are contested by students or organizations.

A special committee created by SC met on Thursday with Dean James S. Peace (Student Life) to sound out his opinions of the proposals. They reported that the dean

'Thirty' Revisited

It's easy enough to make a mistake—the difficulty is admitting and rectifying it. Observation Post, by reversing its hasty decision to cease publication, has displayed a spark of courage, and for this we commend it. As champions of the two-newspaper system at the College, we welcome them back and hope their renewed efforts will prove successful.

But OP has a responsibility to the College and its students, and its announcement to "call it quits" had all the earmarks of rash youth. The actions of one newspaper cast a reflection on other publications at the College and OP's errors cannot be glossed over without criticism.

It is easy enough to say "thirty" the night before publication. And although we appreciate the fact that there were more fundamental and valid reasons for OP's decision, if the editors would have given the situation a little more thought, they might not have quit in the first place.

As an undergraduate newspaper, we can understand fully OP's bleak prospects. The managing board was bearing the brunt of the work; the staff was slowly dwindling; and the candidates, OP's last hope, were not quite ready or willing to carry the burden.

It would seem that a good deal of these problems stem from OP's inability to develop successful candidates' classes. In the past few years the editors down the hall have not inspired their candidates to carry the torch for journalism, but have left them to flounder while they rake up the ashes.

However, as soon as OP announced it would cease publication, a small band of students rallied to its side. The saviors had come. All of a sudden there came a moment of revelation—OP could be saved. It seems a shame that this noble group had to wait until the body was cold. We sincerely hope that when the glamour of "Save OP" wears off, the new managing board will keep to their guns.

In any event, we welcome them back to the grind with full hearts and but one reservation. It is possible that there may be a tendency among those concerned with student activities and fee allocations to bend over backwards to help OP in its struggle to continue.

We would remind them that it takes more than good intentions to publish a paper worth the cost of production, and that to reward the inept is only to punish those who surmount more effectively obstacles mutually shared.

Dean Peace's Analysis

In attempting to analyze the then seemingly fatal collapse of Observation Post, Dean Peace asserted last week that campus newspapers were catering to a minority of students and neglecting the interests of the majority. He went on to say that only 60 to 100 students are deeply concerned about membership lists,

an issue that has received extensive coverage in the College press over the last two and one-half years.

The Dean suggested that a majority of students are more interested in obtaining information about club activities, scholarships, loans and various social functions at the College. "If a greater number of students found the papers were serving their interests," he said, "they in turn might be more willing to donate time to the publications."

Unfortunately, Dean Peace has not come up with the long-awaited answer to the problem of lagging interest in many of the publications at the college and the broader problem of student apathy in all activities here. While we might quibble with the Dean over his figures, we must reluctantly agree that most students don't give a damn about membership lists, or the arguments in Student Council, or whether Mike Rizzo can prove that Marty Pollner cheated in last term's election. But as journalists and members of the College community it is not our goal merely to be popular.

The papers would undoubtedly receive more students interest if we published comic strips and crossword puzzles, but we do not accept this as our primary responsibility.

If membership lists have not almost destroyed political life at the College, they have been instrumental in stifling liberal thought and action. Certainly there is nothing in them to encourage political development.

We recognize this even if a majority of the students do not, and we consider it our responsibility to keep the issue in the limelight and to keep the "interested few" informed of any news on the subject. It is easy for us to understand why Dean Peace, one of the original proponents of lists, would like us to forget all about them, but to do so would be a disservice to the College and an evasion of our journalistic obligations.

The other suggestions made by the Dean merit consideration.

Club activities and meetings presently are announced at least once a week. It is the policy of this newspaper never to omit club notes which are presented to us at least two days in advance. In addition, club activities of special interest are noted in our news columns.

Scholarship and loan announcements are received from Dean Peace's office and other sources several times each semester and lately most of them have been published.

We welcome comments from readers who feel that increased coverage in these areas would be warranted.

There are only a handful of important social events during the school year and most receive very extensive coverage.

What about other activities? They just don't exist. A walk through the tomb-like corridors of the Finley Center will convince Dean Peace of the crushing inroads which apathy has made in the very center of College life.

We submit to Dean Peace that it is his responsibility to direct the efforts of the Department of Student Life against this rising tide of inertia.

Lest We Forget

At the Mercury hearing last January, Richard O'Malley gave a lengthy discourse, the point of which was that the Board of Higher Education should deny Mercury the use of the College's name and seal because of the disparaging effect Mercurian humor (to Mr. O'Malley's mind) had on the good name of the College.

Mr. O'Malley, editor of Catholic Views two years ago when it was affiliated with the Evening Session Newman Club, has been a strong influence in the editorial campaign which that organ has been carrying on to preserve the good name of the College.

Such a devotion should certainly not pass unrewarded and unheeded. Good namesmanship is undoubtedly one of the noblest endeavors in which a student may indulge himself for alma mater; unfortunately it turns out to be more than a five-day-a-week venture.

Last weekend Mr. O'Malley suffered a lapse. He forgot for a few moments that as much as distasteful plays on sex may besmirch a clean reputation, what people think of a college very often is influenced by what its students say—especially when they speak about their school.

If Richard O'Malley had heeded some of his own preachings before rashly indicting the Economics Department last Saturday the good name of the College in which he pretends to be so interested would be much better off today.

Observation Post Returns

(Continued from Page 1)

pull through. Gross explained that active originally because they themselves were not sufficiently aware of the plight of the paper.

Decisions on the exact date of publication and whether to publish once or twice weekly will be made at staff meetings this week.

Observation Post announced will hold a meeting Thursday at 301 Downer for all undergraduates interested in joining the staff.

In an effort to attract new members it was decided that all interested students would be accepted immediately. Formerly such persons would have been required to wait as candidates for one semester.

Take a
2-minute
preview of
your path
to RCA
engineering

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management. Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open... from research, systems, design and development to manufacturing engineering... in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

... and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now... for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus...

Music and Art Must Remain, Board Decides

The High School of Music and Art will remain in operation and its facilities will not be turned over to the College, according to a decision made Wednesday by the Board of Education.

Speculation that the College might obtain M & A's building had arisen from proposals to relocate the high school or merge it with other schools. The proposals were rejected by the Board on Wednesday after city and school officials had received numerous letters protesting the dissolution of the school.

Gallagher Asked For Site

Acting on the supposition that Music and Art would be relocated, Mrs. Buell G. Gallagher, in a letter published February 22 in the New York Times, had asked that the College be given the M & A site. The President argued that the acquisition of the high school's building, strategically located between the College's two campuses, would greatly reduce cross-campus travel.

Cited Need For Space

He also cited the additional classroom space which would be made available to the College, and the possible utilization of the high school's auditorium as a theatre. Without the acquisition of Music and Arts facilities, the President said, many apartment houses in this vicinity will have to be torn down to make room for the expansion of the College.

Court Powers

(Continued from Page 1)

is receptive to the recommendations. SC also elected Wednesday night new judges to the Student Court. Howard Schumann '58 was chosen Chief Justice, and Sy Mignone '58 and Karen Gordon '59 will be associate justices.

scorer with twenty points, at the 16:35 mark. Sullivan converted the technical and it was the Mounties' ball out of bounds with the score at 79-74.

It was Lewis' driving one-handed jump shot with a minute and a half to play that put the Beavers within three points of the Mounties at 83-80. At this point, however, the Lavender fell apart and Mt. St. Mary's lead by Bohlinger and Sheing, moved out to a 92-81 advantage.

Although Polansky praised the Mountaineers' and cited Sullivan "as a really fine all around ball

player," both he and Mountaineer coach Jim Phelan agreed that the game was colored by the officials. "We can't feel justified after the referees' terrible calls," Phelan remarked.

Melpar to Interview Engineers, Physicists and Mathematicians

One Of Nation's Leading Electronic Firms Offers Unique Opportunities

Mechanical and electronic engineers, as well as those majoring in physics and math will want to investigate the unusual opportunities for rapid professional growth and advancement offered by Melpar, Inc., one of the Nation's leading electronic research and development organizations.

A subsidiary of Westinghouse Air Brake Company, Melpar is now engaged in a program of expansion involving both increases in staff and facilities. The organization's headquarters laboratory is located in Fairfax County, Virginia, only 10 miles from Washington, D. C.

No Formal Training Period At Melpar

The college or university graduate who joins Melpar is not required to undergo a formal training program. Instead he immediately becomes a member of a project group and is assigned to work with an experienced engineer whose guidance and assistance enable him to advance rapidly. Members of Melpar project groups gain experience in all phases of engineering problems by free and frequent interchange of ideas during group meetings. Such experience is valuable in leading to eventual managerial responsibility.

Financial Assistance Offered by Melpar for Graduate Work

The list of universities located near Melpar laboratories that offer graduate and undergraduate courses in engineering subjects includes: Georgetown University, George Washington University, American University, Catholic University, University of Maryland, University of Virginia, Harvard, Massachusetts Institute of Technology, Northeastern University, and Boston University. Melpar offers financial assistance for study at these distinguished schools.

Melpar Locales Offer Fine Living Conditions

Melpar's R & D operations are centered near and in Washington, D. C. and Boston, Mass. Both are rich in cultural and educational facilities. The Washington, D. C. area in which Melpar's headquarters laboratory is located is within easy driving range of beaches, lakes, mountains, as well as other recreational and scenic points. The climate allows outdoor recreation 215 days of the year. Fine homes and apartments in all price ranges are readily available.

Melpar's Boston area plants allow engineers to enjoy the pleasant tempo of New England living coupled with Boston's splendid cultural and educational advantages. Melpar pays re-location expenses.

Booklets Available
An attractive, fully-illustrated booklet describing living conditions prevailing in the Washington, D. C. area can be obtained from your campus Placement Officer.

Performance Determines Advancement At Melpar

At Melpar there is no waiting period for "automatic" advancement. Instead, an engineer, regardless of his age or tenure, may move ahead as rapidly as his skill and performance dictate. Each engi-

neer's achievement is reviewed at least twice a year. In this manner engineers deserving advancement can be quickly "spotted" and promoted. As soon as an engineer is ready for more complex responsibilities they are given him.

Qualified Graduates Offered Paid Inspection Trips

After a personal interview on their campus, qualified candidates may be invited to visit Melpar's headquarters laboratory near Washington, D. C. at Company expense. Information on opportunities available for graduates together with details on living conditions in the Washington, D. C. area is available by simply writing: Mr. William Schaub, Melpar, Inc., 3000 Arlington Blvd., Falls Church, Virginia.

Many University Courses Offered At Melpar's Main Lab

Melpar staff members, both holders and non-holders of degrees, may take advantage of the many fully-accredited courses in engineering subjects which are offered at Melpar's headquarters laboratory.

Company Policies Geared To Engineer's Needs

Melpar's personnel policies emphasize individual consideration, objective treatment, and opportunity based on ability. Specifically, these policies are implemented by promotion from within; wherever possible, merit reviews that are truly meaningful, work assignments in keeping with the engineer's most obvious capabilities. In addition, of course, the Company makes available to each of its staff members a wide program of company benefits, including group insurance with life, sickness, hospitalization and major medical expense features, a retirement plan, and provides for paid sick leave, vacations and holidays. Salaries at Melpar compare most favorably with those of the industry as a whole.

Melpar Expanding Steadily Every Year

Founded in 1945, Melpar has doubled in size every 18 months for the past 11 years. Recently it completed erection of a complete new headquarters laboratory near the Nation's Capital, and is presently making substantial additions to its Watertown, Mass. laboratory (6 miles west of Boston), and to its research department in Boston.

Located on a 44-acre landscaped tract, Melpar's main laboratories encompass over 265,000 square feet under a single roof. Fully air-conditioned, they are equipped with every facility. In addition to the new, ultra-modern headquarters plant, Melpar maintains additional facilities in Arlington, Virginia, Boston and Watertown, Massachusetts, encompassing a total of 460,000 square feet.

Challenging Openings Available At Melpar In Many Fields

Engineers who join Melpar may choose their assignments from one or more of these challenging fields:

- Flight Simulators • Radar and Countermeasures • Network Theory • Systems Evaluation • Microwave Techniques • Analog & Digital Computers • Magnetic Tape Handling • UHF, VHF, or SHF Receivers • Packaging Electronic Equipment • Pulse Circuitry • Microwave Filters • Servo-mechanisms • Subminiaturization • Electro-Mechanical Design • Small Mechanisms • Quality Control & Test Engineering.

Members of Melpar's research and engineering staff are ably supported by many designers, draftsmen and technicians. Coordinated supporting services include a chemistry laboratory, a quality control group, an environmental test laboratory, a number of shops, and other specialized facilities.

Mermen Lose to NYU In Met Championships

By Bert Rosenthal

The College's swimming team recorded a "disappointing" second place finish in the Metropolitan Collegiate Conference Championships on Saturday at New York University's John Quigley Memorial Pool.

Favorites to cop the crown on the basis of their undefeated record against Met opponents during the season, the Beavers failed in their bid to gain permanent possession of the Francis P. Wall cup, which is awarded to the team winning the coveted silver trophy three times. Instead, it was the defending champs, the Violets, who edged the Beavers, 73-70, to secure permanent possession of the award.

Fordham, featuring the outstanding performer of the meet in triple-event winner, Caesar Cirigliano, placed third in the competition with forty points. Kings Point, Manhattan, Brooklyn, Brooklyn Poly and Hunter trailed in that order.

Experts have claimed that a team shut out in any event is not entitled to win the meet, and it was the Lavender's inability to score in either the 200-yard butterfly or the one-meter dive that cost them the victory.

The Beavers gained a quick lead by splashing to a record-breaking victory in the opening event, the newly instituted 400-yard medley relay. The quartet of co-captain Sol Stern, Dick Fischer, Sheldon Manspeizer and Jim Johnsen led the way to lower the standard they had set in Friday's preliminary heats from 4:30.0 to 4:22.1.

A 440-yard free-style relay team of Johnsen, Steve Kesten, Fred Vicidomini and co-captain Richie Silverstein scored the only other Lavender triumph of the evening.

This was the concluding event on the program, and previous to it, NYU led 63-56. The Beavers' only chance for a meet victory was to cop the 440, which they did, and to hope that the Violets would finish fourth, and accumulate only 69 points. However, the NYU quartet of Abe Tsirk, Jim Zingerman, Hank Hecht and Don Strassberg nipped Kings Point for second place, giving them ten points for their total of 73.

Johnsen, besides anchoring both the winning relays, picked up five second place points in the 440-yard individual freestyle, finishing behind Fordham's Cirigliano.

The Summaries

440-Yard Medley Relay: 1. CCNY (Sol Stern, Dick Fischer, Sheldon Manspeizer, Jim Johnsen); 2. NYU. 3. Kings Point;

Jim Johnsen was the standout performer for the Beavers in the Met Swimming Championships.

4. Manhattan; 5. Brooklyn College. Time: 4:42.1.
200-Yard Freestyle: 1. Caesar Cirigliano, Fordham; 2. Fred Vicidomini, CCNY; 3. Larry Premier, CCNY; 4. Hank Hecht, NYU; 5. Ray Schultz, Kings Point; 6. Jim Stein, Manhattan. Time: 2:26.2.

50-Yard Freestyle: Don Strassberg, NYU; 2. John Hayman, Fordham; 3. Steve Kesten, CCNY; 4. Richie Silverstein, CCNY; 5. Paul Hunter, Fordham; 6. Tom Radolinsky, Brooklyn College. Time: 0:24.7.

200-Yard Butterfly: 1. Cirigliano, Fordham; 2. Art Braunstein, NYU; 3. Bill Stern, NYU; 4. Bill Etzel, NYU; 5. Dick Johnson, Manhattan; 6. Jim Whiddon, Brooklyn Poly. Time: 2:36.7.

One-meter Dive: 1. John Barroncini, NYU; 2. Jack Chislett, Kings Point; 3. Seymour Fattell, NYU; 4. Gordon Mason, Kings Point; 5. Joe Dovyditis, Brooklyn Poly; 6. Jerry August, Manhattan. Points: 93.92.

440-Yard Freestyle: 1. Cirigliano, Fordham; 2. Johnsen, CCNY; 3. Paul Shapiro, Brooklyn; 4. Hecht, NYU; 5. Mark Tighe, Kings Point; 6. Premier, CCNY. Time: 5:13.0.

100-Yard Freestyle: 1. Strassberg, NYU; 2. Hayman, Fordham; 3. Kesten, CCNY; 4. Roger Quigg, Kings Point; 5. Silverstein, CCNY; 6. Bob Maldonado, Manhattan. Time: 0:54.1.

200-Yard Breaststroke: 1. Braunstein, NYU; 2. Fischer, CCNY; 3. Bob Jung, Kings Point; 4. Harry Farber, Brooklyn College; 5. Johnson, Manhattan; 6. Jack Newman, NYU. Time: 2:39.4.

200-Yard Backstroke: 1. Hayman, Fordham; 2. Stern, CCNY; 3. Jerry Lopatin, CCNY; 4. Tom Doyle, Kings Point; 5. Etzel, NYU; 6. Dick Smith, Kings Point. Time: 2:24.4.

400-Yard Freestyle Relay: 1. CCNY (Kesten, Johnsen, Silverstein, Vicidomini); 2. NYU; 3. Manhattan; 5. Brooklyn Poly; 6. Brooklyn College. Time: 3:48.0.

NYU Game at Fordham Tonight Is Last for Lavender Cagers

By Aaron Goldman

Winding up its most successful season since 1950, the College's basketball team will face New York University tonight at 8:30 in the Fordham Gymnasium.

The series, generally regarded as the big rivalry for both clubs, dates back to 1913. NYU has a 22 to 18 edge in the forty games played to date.

This season has been a disappointing one for the Violets. Possessors of a six and twelve mark, NYU has shown on occasion that it can hold its own with top collegiate aggregations. Against North Carolina and West Virginia, two highly ranked squads, the Violets were beaten by only narrow margins.

Cal Ramsey, their 6-4 forward, is generally considered to be the best cager in the Metropolitan area. Last year against the Beaver frosh, Ramsey scored 39 points. Jimmy Nidds, 5-11 and Tom DeLuca, 5-10 combine to give the Violets a fine backcourt duo. Nidds, a defensive ace, held West Virginia's 'Hot Rod' Hundley to a scant eight points.

CAL RAMSEY

At center, NYU has 6-7 Dan Knapp. Knapp joined the squad at the mid-season break and has been

HELP WANTED Sears, Roebuck & Co.

LEADS, LEADS, LEADS

We are interested in several students with cars, to sell after school, evenings and on Saturday, directly to our customers in their homes.

WE FURNISH:

- 1. Drawing account
- 2. High commissions
- 3. Car allowance
- 4. Employee discounts
- 5. Many other benefits

We will train those who qualify to represent us successfully in our direct selling organization. For further information and personal interview, see Mr. Pike, Saturday, March 9, 10:30 AM, Sears, Roebuck & Co., 360 West 31 St., New York City.

Redmen Top 'Five' By 88-71 Score

By Hank Grossman

A sixteen-point first half proved the Beavers' undoing Saturday night, as they bowed to St. John's University, 88-71, at the Van Buren High School gym in Queens Village.

The setback was the College's sixth in seventeen outings. St. John's record now stands at 14-8. The victory gives the Redmen an eight game edge in the 36 meetings between the two schools.

Four men hit in double figures for the Brooklynites. Their most effective players were Dick Duckett and Alan Seiden. The two backcourt men scored 30 points between them in the first half to give St. John's an insurmountable 33 point half-time lead.

Duckett Reaches 1000

Duckett, needing only nine points to reach the 1000 total in four years of varsity play, wound up high man in the game with 22 points. Seiden scored fourteen and Walt Brady and Bud Pascal tallied thirteen and eleven, respectively.

Joe Bernardo led the College's at-

tack with eighteen points, two more than Ralph Schefflan. But their efforts were confined to the second half when the game was already over and coach Joe Lapchick had inserted his second-string reserves.

The outcome was never in doubt after the first few minutes of play. A lay-up by Bill Chrystal, a drive by Seiden and a short jump shot by Mike Parenti put the Redmen ahead 6-0. Jump shots by Bennardo and Syd Levy, sandwiched around a hook by Bud Pascal, brought the Brooklynites' lead down to four, but an eight point surge during which Seiden scored six and Parenti two opened up the gap to twelve points.

Beaver Shooting Woeful

From there on St. John's pulled away rapidly behind Duckett's accurate set shooting and Seiden's hard driving play.

Half-time statistics reveal the Beavers' woeful shooting. Against the Redmen's zone defense they hit on 8 of 35 from the field for a 23 per cent average. They also missed their only two foul attempts in the half. This compares with St. John's 55 per cent from the field and thirteen foul conversions.

The only bright spot from a Lavender viewpoint was the Beavers' 55 point second half which coach Dave Polansky hoped would "carry over into the N.C.A.A. tournament

an inconsistent scorer thus far. Art Tierney, 6-3 forward with a dangerous one-hander, rounds out the starting five.

Last year's game between the two old rivals saw the Violets come out on top, 78-56. Although this year's Beaver quintet is a greatly improved one, the strain of playing three games in four days could be an important factor in tonight's contest.

Coach Dave Polansky foresees a tough game for his squad. "They're as good as any team in the city," he said, "and they'll be out to finish this season of their's with a bang. They have several good men and the game should be a close one."

IT'S FOR REAL!
