Supported by Student Fees

Plan to Revise SC Gets Mixed Reaction

By Bob Mayer

Plans ranging from "excellent" to "stupid" were used by student leaders yesterday in voting the plan for divi-

representation on Student Council that will be submitted to a referendum later this semester.

A proposal for a Council of delegates from the School of Arts and Science, eleven from the School of Technology and nine from the School of Education met at the whole-hearted consent of Max Zaslawsky '58, president of the Technology-Interfraternity-Council.

Nagler said he favors the plan "one hundred per cent," and has withdrawn his previous recommendation of a separate Tech council.

Under threat of our breaking out pressure on Council to action," Zaslawsky said. "I'm pleased with the result."

Support Not Unanimous

Tech men were not unanimous in supporting the plan, which was agreed Wednesday night before the student body.

White '59, an electrical engineering major and associate editor of Tech News, called the plan "a stupid move," and said it would encourage a breach within the college.

Tech interests haven't been taken care of, Tech apathy is real," he said. But he added that a separate council of engineering would be worse."

Nagler said that the TIIC plan for a separate council had not influenced him because he favored students are entitled to

decide," he explained, "but I think approval of the plan would be to the engineers' disadvantage in the long run. The existing system en-

COUNCIL PRESIDENT Steve Nagler felt the plan would bring added incentive to Techmen.

ables them to run, and if they wanted to they could flood Council. The plan would limit them."

Nagler Backs Plan

According to Steve Nagler '58, SG president, who introduced the motion for the referendum, greater Tech representation would broaden Council's area of competence. He said the plan would provide incentive for Tech participation.

Nagler said that the TIIC plan for a separate council had not influenced him because he favored

E-Day Tomorrow

Technology Facilities Open to Public; Six Dep'ts to Present 100 Exhibits

The laboratory facilities of the School of Technology will be displayed to the public tomorrow as part of the College's annual Engineer's Day program.

For the first time since the inception of E-Day, visitors will be able to view the demonstrations of their choice. Previously, guided tours were conducted. The program will begin at 10 in the morning and continue until 3.

More than one hundred exhibits, representing the Departments of Drafting, Military Science, Electrical, Civil, Mechanical and Chemical Engineering, will be presented in various North Campus buildings. The College's sub-critical nuclear reactor will be included in the display.

Visitors will register in Goethals Hall at the beginning of the day and then proceed to their choice of exhibits. Twenty minute demonstrations will be given every half-hour throughout the program. The majority of visitors are normally high school seniors. However, E-Day will be open to all students at the College.

Among the laboratory demon-

ACTRESS Ellen McRae of "Fair Game" will crown Miss E-Day tomorrow.

strations will be a steel rolling mill, architectural models, an electronic organ and a performance test on an Oldsmobile "Rocket" engine. Special fifty minute sessions will be conducted by the Department.

Math Society Unchartered; Refuses to Submit Lists

By Wally Schwartz

The Mathematics Society has become the first College organization which has decided not to submit membership lists. The club will remain

on campus as a non-chartered organization, Eugene Luks '60, the group's president revealed yesterday.

Holding two meetings, on successive weeks earlier this semester, the club voted each time by "close decisions" not to register as a chartered organization, according to Luks.

He explained that the group voted neither to submit lists nor to become a Student Government program Commission because it felt it could continue without funds or outside speakers, and because the majority of members stood "against the principle of lists." He said the students "felt they had nothing to lose" by refusing to present rosters.

The General Faculty voted last November 14 to require all campus organizations to determine by election whether or not they wished to turn in membership lists. Groups deciding not to submit the lists are denied SG funds and cannot use the College's name.

Luks said that the Math Society has encountered some difficulties this semester because of its action, but has not regretted its decision.

"At first we were not given a mail box because we were late in registering, but then Mr. Zades saw that we were given a box. Now there is a possibility that we will not be permitted to use the mailing address of the College," he said.

The Society has met no difficulty in obtaining a meeting room.

Center Seeks \$10,000 Sum From Alumni

By Don Langer

Officials of the Finley Student Center today will seek ten thousand dollars from the City College Fund to meet anticipated operating costs until the end of the fiscal year.

The budget, which covers the period from June '57 to June '58, calls for more than \$130,000 in expenditures. But revenues are expected to fall short of the goal by the amount requested, Mr. David Newton (Student Life) explained yesterday.

The College Fund is the money-raising arm of the Alumni Association. More than forty thousand dollars already has been granted by the alumni for the current budget.

Budget May be Scaled

If the association is unable to meet the Center's requirements, the budget will be scaled down and services to the student body will be curtailed, according to Mr. Newton, who is Assistant Director of the Center.

One projected curtailment is a reduction in the operating hours of the ping pong and pool rooms in order to cut salary expenditures. Similar measures will affect other areas of the student center.

Another alternative is a "redistribution of funds in other categories of the budget," Mr. Newton said. While certain areas of expenditure are deficient in moneys, others show a more than ample balance, he noted.

Maintenance Great Expense

The greatest expense is incurred by the center for the maintenance of the cleaning staff. Almost thirty thousand dollars was spent for this item. Another twenty thousand dollars pays for the Burns Guards, the College's security force.

Salaries for student employees of the center are just shy of equaling expenditures for the cleaning staff. According to Mr. Newton, approximately eighty students work for the Center during the year.

He revealed that eight thousand dollars remains of the original allocation for student salaries. "This sum may not be sufficient for full

House Plan to Hold Mystery Bus Jaunt

The first mystery bus ride at the College in four years will be held on Sunday.

Sponsored by House Plan, several buses will leave the college from the South Campus at 9:30 in the morning, and return at 6. A day of activities, including outdoor sports, games, entertainment and a cookout is planned.

Tickets at \$1.50 for House Plan members and \$1.75 for others are on sale in 331 Finley. The cost will be reduced to \$1.25 per person for house groups of more than seven.

5 Schools in Debate Contest

College To Sponsor Debate Tomorrow

By Gil Moore

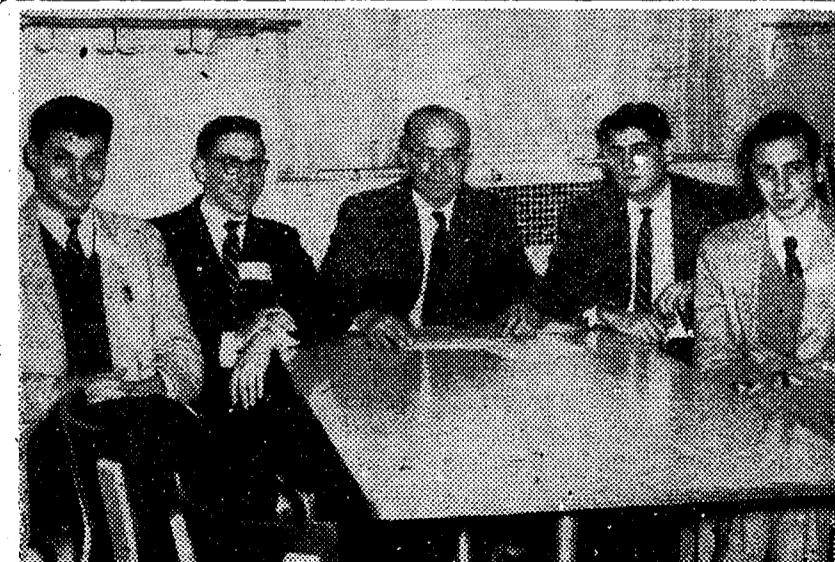

Debaters from 25 colleges and universities in five states participate in the Third Annual Invitational Debate Tournament tomorrow in the Finley Student Center.

Sponsored by the College's Debating Society and the Center, the tournament will begin at 10 and continue until 5.

National collegiate topic is required: that the requirement of membership in a labor organization is a condition of employment is illegal.

The school will send a team of two affirmative and two negative, and one faculty judge. Teams will participate in three rounds each.

Today's schedule provides for rounds of debate: one in the morning and two in the afternoon. Luncheon break at noon. Suell G. Gallagher will address the competitors at the conclusion.

FLANKING ADVISOR Dr. Wayne Nicholas are (l. to r.) Carl Hamerschlag, Pres. Gil August, Treas. Burt Bernstein and Sec'y Norman Fastman of the Debating Society.

display in Lincoln Corridor, will be awarded to the team with the best won-lost record and to the highest ranking individual affirmative and negative speakers. Last year's trophy was won by St. John's University.

The College, as host does not take active part in the debates.

The Baruch School, however, will compete in the tournament.

Columbia University, Brooklyn College, New York University and Fordham are among the other schools from New York City which will be represented. Out of town schools include Rutgers, Princeton and Temple Universities.

News in Brief

Friday Night Dance

The third in a series of five Friday night dances sponsored by Student Government, will be held tomorrow in the Grand Ballroom of the Finley Student Center.

Music will be provided by Arthur Jablon and his orchestra. Two tickets to "Bells Are Ringing" will be awarded to the winner of a bingo game. Admission to the affair, which begins at 8:15, is by photo ID cards.

Lewin Elected

Prof. Seymour Lewin of the New York University chemistry department, has been elected president of the City College Chemistry Alumni Association. Professor Lewin succeeds Julius A. Wunsch.

To Show Films

Five motion pictures will be presented this semester by the Student Government Films Division.

"Viva Zapata," the first of the series, will be shown at 3 on March 24 and 25 in the Townsend Harris Auditorium. It stars Marlon Brando and Anthony Quinn.

The other films and the dates they will be shown are: "On the Waterfront," March 31 and April 1; "Quo Vadis," April 14 and 15; "Solid Gold Cadillac," April 21 and 22; "An American in Paris," April 28 and 29.

Newman Club Meets

The Newman Club will meet tomorrow at 2:30 at the Catholic Center. Refreshments will be served. Supper and a swimming party will follow a Holy Hour at Our Lady of Lourdes Church on W. 142 St.

Pool Tournament

The Activities Program Board is sponsoring the first pool tournament at the College. Applications for the competition are available in 153 Finley or in the pool room, 333 Finley. Prizes will be awarded.

Alumni Loan

(Continued from Page 1)

capacity operation of the Center," Mr. Newton noted.

The need for additional funds was attributed by him to "the phenomenal increase in the use of the Center by students." "Twice as many persons utilize the facilities at present than a year ago," he explained.

Revenues for the Center's operation are derived from student fees, snack bar and vending machine concessions, and the College Fund.

Film on South African Bushmen Wins Flaherty Award for '57

The College's Robert J. Flaherty Award for the outstanding documentary film of 1957 has been won by "The Hunters," Mr. Yael Woll, director of the College's Institute of Film Techniques, announced yesterday.

Presentation of the awards will be made at a screening of the prize-winning films tomorrow evening at 8:30 at the Fashion Institute, 225 West 24 Street. Arthur Knight, film critic for the Saturday Review and a member of the panel of judges, will make the presentations.

"The Hunters," a study of the primitive culture of the Bushmen of South Africa, depicts a tribal hunt. Filmed in color in the Kalahari Desert, the documentary was produced for the Peabody Museum of Harvard University.

A special award was given to

FILM LECTURER Arthur Knight was a judge in the annual Flaherty contest.

"The Earth Is Born," a technicolor film portraying the formation of the earth.

Delay Ruling on Benefits For Bookstore Employees

Meeting for the first time in one year, the College's Student Faculty Bookstore Committee postponed a decision on the fringe benefits being sought by student bookstore employees.

Workers' requests will be reconsidered at the Committee's next meeting which will be held in two weeks. A spokesman for the committee said that action was deferred in order to give members more time to evaluate the issues involved.

The Bookstore Committee is composed of three students and four faculty members, representing both the Main and Baruch Centers.

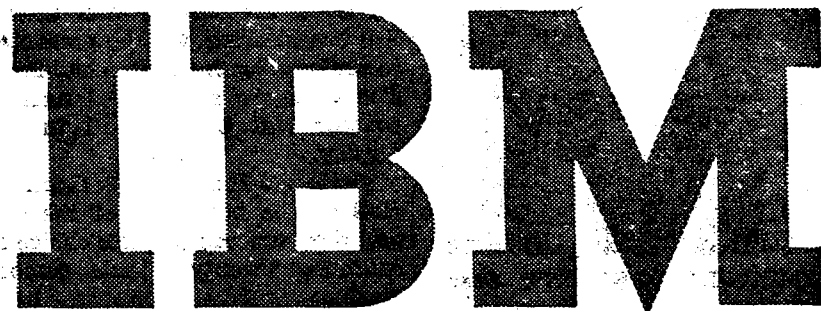

The Board of Higher Education formulates all wage policies for College employees. If the committee approves the bookstore employ-

ees' requests, it will probably commend that Aaron Zwarg, College business manager, take the matter up with the BHE.

A spokesman for the bookstore employees proposed four benefits at the meeting. The overtime pay, pro-rated vacation, sick-pay and holiday wages, benefits would accrue only to students who work a minimum of ten hours per week throughout the year. Currently only employees working forty hours a week receive these privileges.

Mike Horowitz '59, a member of the committee, led the controversy as "a spokesman" of whether the student bookstore employees are on a par with student aids, or with the bookstore regulars.

SOME FACTS ABOUT IBM

The growth of the company has been spectacular since its inception in 1914. This has been especially true in recent years, as business, industry, science and government have turned increasingly to automation through electronic computers.

Such growth naturally provides many opportunities for advancement to well-qualified college graduates. IBM company policies and practices lay a firm groundwork for rewarding, enjoyable and secure careers.

At IBM, for example, individual merit is quickly recognized by increased responsibility and remuneration. Through "small-team" proj-

ect systems... cordial employee-management relations... excellent financial rewards... outstanding company-paid benefits... the potential exists for well-established careers. IBM-sponsored educational and training programs are among the most advanced in the American business world today.

IBM laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Sales and service offices in 198 principal cities throughout the United States.

If you cannot attend interviews, write or call the manager of the nearest IBM office:

Quiz Show Timely for Soph

Stunts Gain Couple \$14,000

Roger Langevin '59, is one man who literally fell over heels for his fiancée. Luring a nest-egg for his coming marriage, Langevin, with his fiancée Carolyn Alderese, a St. John's law student, staged a series of feats for consecutive weeks last month on S-TV's "Beat the Clock."

of the more imposing tasks they did was the crushing of a five-foot square carton with gloves so that it could fit through a small post. After jumping on the box and crushing it. I wound up with my head on the bottom and my legs hanging over the side," he said.

the prizes the pair were a Ford Thunderbird, a Lambretta scooter, a high-phonograph and a set of silverware.

the direction of master ceremonies Bud Collier, they staged eight party stunts during a three-week period. In addition, Miss Alderese correctly answered a word-matching game on the show, enabling the couple to continue playing.

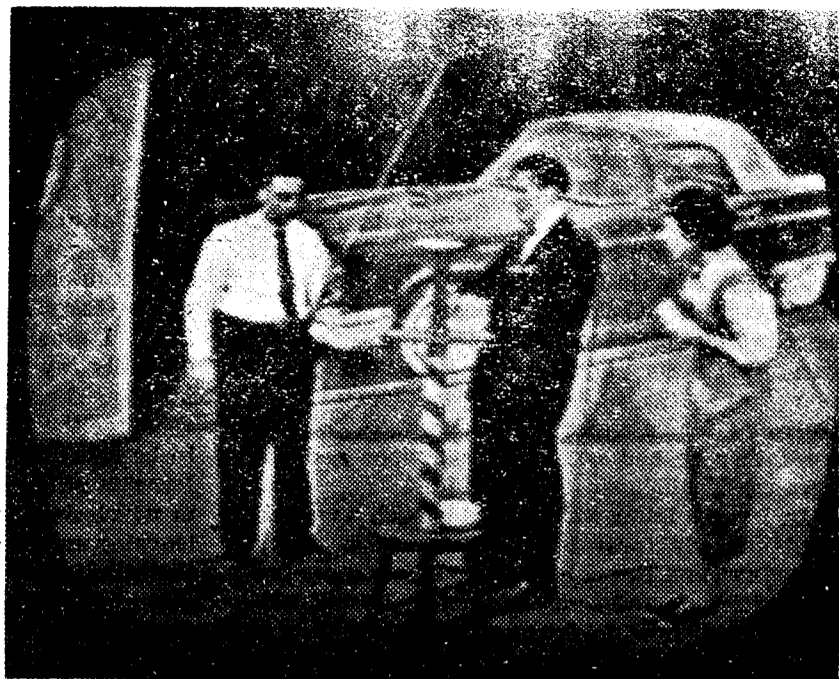

Ford was won as the result of Langevin's completion of a special stunt which had contestants for the previous three months. He succeeded in catching a cup suspended from a rod onto a saucer which was placed on top of a narrow

couple's downfall came when Alderese failed in a solo attempt. "Carolyn had to set off a mechanical toy truck and catch it by walking on the tops of cans," Langevin recalls. "I couldn't quite make it."

They were to be married next April. They were chosen from the studio to participate in the quiz show.

Two minutes before the show began we got the heebie-jeebies," the nineteen year-old engineering student admitted, "but the first stunt we both felt relaxed."

Langevin concedes that at times during his tenure on the show he felt ridiculous performing the various capers. However, he quickly adds "I didn't mind how silly I looked, because it was well worth it."

SCREENS' EYE VIEW: Roger Langevin is presented a Ford Thunderbird for his stuntsmanship on the quiz show, "Beat the Clock."

Caduceus Wins Activities Fair For Exhibition of Dissected Cat

The first prize in the semi-annual Activities Fair held yesterday in the Finley Center was awarded to the Caduceus Society for demonstrating the dissection of a cat.

Fourteen student organizations participated in the Fair, sponsored by Gamma Sigma Sigma, the national service sorority. An estimated four hundred students attended.

In addition, the Caduceus Society also presented an exhibit of the circulatory system of a live frog. The preserved heart of another frog, attached to a device which measured the heartbeat, was displayed.

As part of the program, Gamma Sigma Sigma held a cookie sale. The proceeds of the function went toward the support of their recently "adopted" Korean baby. "We have adopted him in the sense that we contribute regularly to his support," a member of the sorority explained.

The first prize was a ten dollar cash award. The Judges, were Mr.

Lester Getzoff (Student Life), Mr. Richard Rommer (Geology), Alpha Phi Omega President George Horowitz, and Judy Barasch, President of Gamma Sigma Sigma. Club Co-Ed, which contributed a band that played Latin-American music throughout the afternoon, was chosen runner-up in the competition.

The Art Society, first prize winners for the previous two terms, was not represented at yesterday's exposition.

Honorable mention was awarded by the Judges to the Amateur Radio Society, El Club Ibero-americano, and the Meteorological Society.

—Schwamm

Fee Reduction
The Campus appeared only once this week because of an insufficient fee allocation. Several other issues will be cut this semester for the same reason. Two issues will be published next week as scheduled.

IN THE NEWS

Professor Wayne Nicholas: Eloquent Speech Instructor

By Bob Mayer

The Finley Center will re-open with 25 simultaneous sessions tomorrow because of quiet efforts of a soft-spoken speech teacher.

The third annual Invitation-Tournament has been organized by Prof. Wayne Nicholas, advisor to the Debating Society. But the unassuming professor refuses to discuss his part in the program, preferring to let the tournament speak for itself. Twenty-five colleges will take part, Dr. Nicholas said. "It's a matter of paying back the many favors we receive. The opening of the Finley Center three years ago made possible our first tournament, and we hope to continue as an annual affair."

Professor Nicholas has been associated with the debating society for six of his ten years at college. His mild manner and a lifelong interest in oratory.

Won Debate Contest

While attending Yankton College in his home state of South Dakota, Professor Nicholas won the state oratory contest and was named the best freshman debater. He no longer remembers the details of the contest, but he does remember the satisfaction of receiving his BA in 1932. He earned a Bachelor of Divinity degree at Union Theological Seminary. He returned to teach studies, after World War II, acquiring a Master's degree from Columbia in 1947 and a Ph.D. in 1953.

Professor Nicholas spent twelve years with the Congregational Church, including three as a Navy chaplain aboard the aircraft carrier USS Bougainville. Before the war he was the director of five churches on Hawaii.

Fourteen Campus Organizations to Submit Membership Lists

Two other groups have disbanded because they were unable to obtain the twelve signatures required for chartered organizations. They are the Bacteriology and Microbiology Societies and the Russo-American Club. Another club, Pick and Shovel, will submit a list of its members in the near future, according to its president, Stanley Brotman '58. The remaining six organizations are sororities and fraternities. According to Mr. Stamos Zades (Student Life) these groups will probably submit lists before the end of the term.

Albert S. ... registered the names of its members with the Student Government Directory. This procedure was approved according to the SG circumvent compulsory membership lists. Mathematics Society has decided to file a membership list to become an unaffiliated organization. The National Association for the Advancement of Colored People at the College has had difficulty obtaining approval and has not submitted a list.

Unity Award

Delta Mu fraternity is soliciting candidates for its fourth "Unity Award." Applicants will be judged on the basis of their contributions to inter-racial unity. The award is presented in the form of a plaque on which the recipient's name is inscribed. Applications should be left in the office of the Student Government.

PROF. WAYNE NICHOLAS

My wife was secretary to a plantation manager," he recalls, "and we lived on a sugar plantation. I was in charge of Philippine, Hawaiian, Japanese, Chinese and English churches."

He now resides in Ridgewood, N. J., with his wife and two daughters, aged ten and twelve.

Devotes Long Hours

The middle aged, grey-haired professor puts in long hours with the debating society. Its president, Gilbert August '58, describes him as "a conscientious worker who is very helpful."

According to Dr. Nicholas, debating is of greater value to students than they realize at the time. "I've had many pupils return years after they graduate to tell me how much debating helped them," he recalled.

Faulkner Film Discussed

Change from Novel Cited by Panel

By Sue Solet

The responsibility of movie producers to the works they adapt for films was emphasized yesterday in a panel discussion sponsored by the College's Films Institute.

The Twentieth Century Fox production of "The Long Hot Summer," based on William Faulkner's novel, "The Hamlet," was the movie under discussion. Mr. Arthur Knight, a lecturer in the Films department, declared that although screenwriters do not have to "copy" the book, they should stay close to the author's theme. Mr. Knight is a movie critic for the Saturday Review of Literature.

The other members of the panel were Prof. Henry Wasser (English) and Mr. John Springer, head of public relations at Twentieth Century Fox. Miss Sarah Marshall, a featured actress in "The Long Hot Summer," failed to appear as scheduled because of illness.

Professor Wasser, criticizing the movie, said that Faulkner tried to show a conflict between the traditionalists of the South and the "new unprincipled" Southerners. "This is not what the film attempts to do," he said. "The film uses Faulkner's story to illustrate a Tennessee Williams theme."

Mr. Springer explained that this fault might have been due to the excessive cutting of the original script. "The first movie was over three hours long, and the theatre managers do not like to run single

Set Dedication Talk For Award Winner In Speech Contest

The winner of the Sandham Contest in Extemporaneous Speaking will be awarded the honor of speaking at the official dedication of the Morris Raphael Cohen Library on May 3, the Speech Department announced this week.

The annual contest is open to all students except previous winners. The topic this year is "Knowledge: Our First Line of Defense."

According to Prof. George E. Haefner (Speech), contestants will be judged on the quality of their material and the manner of presentation. In addition to speaking at the library dedication, the winner will receive a cash award.

Concurrently with the Sandham competition, the Roemer Contest in Poetry Reading will be held. Previous winners may not enter.

The Roemer Contest will be judged on the basis of the student's ability to "grasp the intellectual meaning of the poem and present it effectively." Applicants may select any short piece of poetry for presentation. The winner will receive a cash prize.

ORSON WELLES eyes Angela Lansbury in this scene from "The Long Hot Summer." The movie was the topic of a discussion sponsored by the Film Institute.

features unless they feel sure of an overwhelming success," he said.

The film version deals with ambition, greed and lust in a small Mississippi town. It stars Paul Newman as Ben Quick, an amiable but stubborn young man who is accused of burning a barn; Joanne Woodward as his fiery girl friend; Orson Welles as a scheming land-

owner; and Anthony Franciosa as his son.

In answer to a student's criticism that movies are not an art form because they are "conceived in compromise," Mr. Knight said that as a public presentation, films are limited in that the producer must give some consideration to the audience.

Council

(Continued from Page 1)

the proposal a year ago, but admitted that several Council members might have been swayed by the maneuver.

SG Seat on TIIC Proposed

TIIC Vice-president Basil Potter '59 proposed last night that a representative of Student Government be given a vote on TIIC. "This would develop a closer feeling between the two groups," he said, "and give SG a greater idea of what TIIC is."

The proposal would have to assume the form of an amendment to the TIIC constitution. Twenty-one out of 28 votes are required for passage. The plan will be considered next week.

Student Receives Fellowship Award

A Woodrow Wilson Fellowship worth approximately two thousand dollars has been awarded to Gene Pontrelli, a graduate student at the College.

Pontrelli, former president of the Baskerville Chemical Society, has recently been elected to Phi Beta Kappa. He is working presently on a chemical research project under the supervision of Prof. Frank Breschia (Chemistry). Pontrelli plans to attend Harvard University next year, to study for a Ph.D. in physical chemistry.

The Wilson Fellowships, awarded on a basis of scholarship, leadership and personality, are granted annually to five hundred students throughout this country and Canada.

No. of semesters of college by June _____

Coed Served as Interpreter For Two Russian Scientists

A 21-year-old coed at the College has decided to embark on a career as a Russian language interpreter as the result of a brief taste of the job early this year.

The student, Natalie Bienstock '58, acted as an interpreter last January for two Soviet physicists who were attending the New York University Conference on the Physics of Atomic and Electronic Collisions. She was recommended by the Russian Institute at NYU, where her mother is an instructor.

To further her ability, Miss Bienstock applied and was accepted by the interpreting school at the University of Geneva in Switzerland. Her knowledge of French as well as Russian enabled her to meet the school's requirement of fluency in three languages.

Toured Technical Labs

After translating for the two scientists at the two-day NYU conference, Miss Bienstock accompanied them on a two-week tour of technical laboratories and institutes in Washington DC, Chicago and New Jersey.

She admits that she was apprehensive before meeting the Russians, who were sent to the international parley by the Physical Technical Institute at Leningrad. "I had assumed they would be cold and official," she says, "but when I met them, I discovered them to be warmly cordial."

Against her preconceived ideas, the dark blond English major found the two physicists to be "liberal thinkers" who "were willing to see the natural differences between our system and theirs." She reports that they were

"amazed" at this country's but they asserted, "We will up."

Miss Bienstock had many opportunities to converse with the physicists during their travels. She was extremely interested in the country's people and customs, and was constantly asking questions. "They were surprised to discover that New York is a racially segregated city."

Plans to Visit Russia

After her studies at Geneva, Miss Bienstock hopes to become an interpreter for the United States at its various conferences over the world. She envisions excitement the prospect of travel.

In the near future, she plans to accompany Prof. Hubert Beck (Education) and his exchange group to the Soviet Union next summer as an interpreter.

3 Education Groups To Meet in Center

Three education groups will participate in an all day conference Tuesday in the Finley Center.

Representatives from the American Association of School Principals, the Association for Supervision and Curriculum Development and the Division of Audio-Visual Instruction and their local affiliates will discuss instructional materials.

The conference is sponsored by a joint committee of the National Association of State Directors of ASCD and DAVI. The session is planned as a pilot conference with the hope that it will serve as a model for similar meetings in other regions of the country.

The Ramo-Wooldridge Corporation

Invites...

Advanced Degree Candidates

- in
- Physics
- Electrical Engineering
- Aeronautical Engineering
- Mathematics
- Mechanical Engineering

to discuss with members of the Technical Staff professional research and development opportunities in the following general fields:

- Communications
- Space Technology
- Data Processing
- Digital Computers and Control Systems
- Electronic Instrumentation and Test Equipment
- Basic Electronic and Aeronautical Research

Interviews to be held in New York City during the IRE Convention, March 24-27. Appointments may be arranged by calling Mr. Theodore Coburn, PLaza 5-2522, or address complete resumé to Mr. Coburn at

Sport Notes

Riflers to Meet Hofstra
The College's rifle team faces Hofstra tonight at 7 at the Lewisohn Range. Tomorrow afternoon the Beavers meet the top squads in the metropolitan area in the St. John's Invitation Tournament at the Redmen's range.

Varsity Club Party
The varsity club is holding a party in honor of the College's new cheerleaders tomorrow night at 7:30 in the Finley Center Buttenweiser Lounge. All varsity athletes are invited.

Wollin Captures Honors
Beaver wrestler Myron Wollin took third place in the Junior Metropolitan AAU 125-pound Championships last weekend in Kingspoint, Long Island.

Bernie Woods, the College's leading wrestler during the past season, dropped a first round bout in Case Institute's Invitational Tournament last weekend in Cleveland. Outstanding grapplers from all areas of the nation were invited to the tourney.

Lacrosse

(Continued from Page 8)
Willie Rodriguez. The 1957 stickmen captured only one of their seven contests.

The varsity will scrimmage tomorrow against the jayvees. "I'm hoping," the 'Chief' said, "that some of those kids will be able to fit in with the varsity. I'll sure need them."

Gone from the team are high scorer Merritt Nesin, attackman Lenny Fagan and defenseman Mike Volpe. This trio gained All-American honorable mention last season.

The outlook is gloomy but the 'Chief' refuses to give up on his team. "If the weather gives us a break and were able to get some practice, we'll get better as we go along. We play a tough schedule, but I know we'll give a good account of ourselves. I just wish," the coached groaned, "I had some more material to work with."
—Katz

Ex-stars Instruct Freshmen

Vaughan to Coach Freshmen Yearlings

By Lew Egol

The College's freshman baseball teams have only one year of experience, but they are building their teams, but if they have a bit of their own ability to help them off on the frosh track baseball teams, this season promises to be a successful one.

Coach Andrew Vaughan, a 28-year old former baseball player and a top-notch pitcher for Furman College, will be coaching the freshman baseball team over 300 for three seasons and was once named to the Southern Conference nine.

Vaughan, a former track star, was an outstanding middle distance runner in his undergraduate days at Otterbein College in Ohio, and ran a leg on the relay team that set a state record.

He is not new to the coaching profession, having led the baseball team for four years. "I did better in basketball at Furman," he recalls. "We once rolled up a 22-0 mark, and overall, I was about 88-9 while I was there." On the diamond, his record was over .500 every season with a top mark of 13-5. Vaughan, 6-3, 220 pound, ex-Marine, is presently studying for his doctorate at Columbia University Teachers College. "I just signed a year contract at City," he says, "but I intend to continue coaching baseball after I receive my degree, although it's much too early to say where."

COACH ANDREW VAUGHAN

coaching baseball after I receive my degree, although it's much too early to say where."

Kerr is a newcomer to the coaching profession, having arrived in New York with his wife, Lynn, and his two young daughters, last June. "I am very pleased with the

Diamond Pilot Kerr Led Furman Nine

city," he said, "and although the recent snow is not something you see in South Carolina, I had plenty of experience with it in the Marine."

Vaughan comes to the College from Columbia University, where he served as assistant freshman football coach in 1956. He was a star athlete at Otterbein College, winning letters in baseball, basketball, football and track.

In 1944 he won a berth on the All-State basketball squad, and later put in one season with the Detroit Falcons of the Basketball Association of America, which has since merged with the National Basketball Association.

The 36-year old Vaughan has been married for fourteen years, and is presently working for his doctorate at Columbia Teachers College.

Where there's a Man... there's a Marlboro

The cigarette designed for men that women like.

Mild-burning Marlboro combines a prized recipe (created in Richmond, Virginia) of the world's great tobaccos with a cellulose acetate filter of consistent dependability. You get big friendly flavor with all the mildness a man could ask for.

Marlboro

YOU GET A LOT TO LIKE—FILTER · FLAVOR · FLIP-TOP BOX

Sturdiest box of all—with the exclusive self-starter.

A long white ash means good tobacco and a mild smoke.

The "filter flower" of cellulose acetate (modern effective filter material) in just one Marlboro Selectate Filter.
