## SC Votes Plan Bert Bernstein '59, SG secretar was passed by a vote of 14 to 1. For Insurance

By Sue Solet

Student Council yesterday voted to sponson a new health insurance plan for students at the College: The vote was 12-0-1.

According to Bob Bisnoff '60, who introduced the motion, Dean Leslie Engler (Administration) will present the program to Pres. Buell G. Gallagher today for for approval.

Bisnoff said that the new plan would "correct all the mistakes of the previous plan."

In the past, Bisnoff said, the program had "no actual contact with the College."

In this year's program, all advertising and mailing was handled by the insurance company broker and students' checks were sent to him, leaving SG without a list of College was passed instead. the insured students.

The following safeguards are included in the new plan:

 All mailing and advertising will be done through the office of Dean James S. Peace (Student

 Students will be required to notify the College that they do or do not wish to purchase a policy.

 Money and applications will be sent directly to the College.

• A special staff will be on hand at the insurance company's offices to give information to stu-

# Increase in Fee

Student Council voted last night to place on the election ballot a referendum authorizing a dollar increase in the student activities fee.

The resolution, introduced by Bert Bernstein '59, SG secretary

A similar recommendation included on the ballot in last semester's elections, was rejected by the student body by a vote of 1632-

SG officials noted last night that because elections are a week away, chances for the referendum's passage are reduced. The failure of last term's fee proposal was attributed to insufficient time before the election to publicize its impor-

In connection with the fee referendum, Council mandated its Elections Committee .o include a discussion of the fee raise in a forum to be held today, at an as. yet undisclosed time.

In another action, Council defeated a resolution calling for a merger of the two day-session newspapers. A subsequent motion declaring Student Council's support of the two-paper system at the

# Council Favors Justice Frankfurter To Dedicate Library

Felix Frankfurter '02, Associate Justice of the United States Supreme Court, will deliver the principal Saturday address at the formal dedication of the Morris Raphael Cohen Library.

The ceremony, beginning at 2, will be held in the new

building in conjunction with the 106th annual meeting of the College's Alumni Association.

A bronze head of Morris Raphael Cohen will be unveiled by Samuel and Victor W. Cohen, brother and son of the late philosopher.

### To Honor Baruch

Also honored at the ceremony will be Bernard Baruch '89, who will witness the dedication in his honor, of a black granite bench, symbolizing the elder stateman's practice of holding important conferences on park benches.

In addition to Justice Frankfurter, the speakers at the library dedication will include Charles H. Tuttle, chairman of the City College Administrative Committee of the Board of Higher Education, and Arnold Deutchman, undergraduate winner of the College's Sandham Contest in extemporaneous speaking. Pres. Buell G. Gallagher will preside.

### Picnic Lunch Scheduled

After a picnic lunch on the South Campus the alumni will present service medals to Here' man J. Lippman '18, Harold Wolfe 27, Prof. Irving Rosenthal '33, Edward M. Goldberger '37 and Sylvia R. Leibowitz '43. A Faculty Service Award will be presented to Dr. Andrew Lavender (English) of the Baruch School. Golden Anniversary diplomas will be awarded to members of the class of 1908 in observance of the 50th anniversary of their graduation.

### **Dedicate Clinic Tomorrow**

The College's Educational Clinic wil be renamed in honor of its that money must be allocated on | founder and first director, the late Samuel B. Heckman, at dedication ceremonies in Klapper tomorrow at

> A memorial plaque, which will be presented by Dean Harold H. Abelson (Education), will be unveiled by Mrs. Heckman. The director of the clinic, Prof. Herbert Nechin, will accept the plaque.

## Senior-faculty Tilt, '58 Meeting Today

The Senior Class will hold its annual meeting and faculty-senior softball game today.

Two speakers will address the senior meeting, which will begin at 12 in 326 Shepard: Prof. J. Bailey Harvey (Chmn. Speech), who will advise the seniors on commencement tickets and regulations; and Prof. Sidney Baldwin, of New York University's Graduate School of Public Administration, who will speak on "Job Opportunities in Public Service for the New Graduate." Professor Baldwin will remain after the meeting to answer questions.

The faculty-senior softball game will be held on the South Campus lawn after the meeting, with Pres. Buell G. Gallagher umpiring.

# New Fee Plan Instituted To Ease Fund Shortage

Student opposition to an increase in the activities fee has prompted the Student Faculty Fee Commission to institute an alternate plan for easing the fund shortage.

The new two-part program affects the Finley Center and minor publications on campus. It is expected to provide savings of \$1,500 in fees when it becomes operational next term.

Mr. Irving Slade (Student Life) disclosed the plan earlier this week. The first part would net approximately nine hundred dollars in savings by financing Friday night dances and the Student Government Film Program with monies from the Finley Center budget. This is subject to the approval of the Finley Center Budget Committee.

Additional sawings would result from a strengthening of publication requirements for College magazines.

Hereafter, these publications will follow a set of three regulations prescribed by SFFC. They are: two-thirds of all material must be written solely by students; guarantees must be posted that at least sixty percent of the printed copies will be sold, and at least one hundred dollars in revenues must be obtained from advertisers.

The magazines affected are Vector, the engineering publication; the Physics Review and the Biological Review. They have already been cut more than \$250 in allocations this semester.

Another innovation established this semester by SFFC affects the method of allocating fees to student groups. Organizations will now apply for funds one semester in advance of the time when

**BUST of Morris Raphael Cohen** 

will be unveiled at library dedi-

cation Saturday,

the money will be used. This SFFC action will permit clubs to be fully aware of their financial resources at the beginning of each term when their programs are being planned.

A drawback of the scheme is the basis of estimates of revenues. In the past funds were allotted during any term for that same 3. semester, and the fee commission knew exactly how much money was available.

To allow for the possibility of appeals, Student Government last month approved a plan to set aside \$750 (approximately five per cent of its budget) for further distribution. This mony already has been used this term to meet additional financial requests by organizations.

Responsibility for compiling the budget is actually in the hands of SG. The major sub-committee of SFFC is the Student Government Fee Commission. Four years ago this agency was empowered to make fee allocations and draw up a budget. These recommendations are automatically reviewed by the parent body, and in appeals cases they receive further scrutiny.

The Student Faculty Fee Commission is made up of five faculty members and five undergraduates. The students are: Ken Werden, '59 SG treasurer; Donald Winsky, treasurer of the Technology In-

Mr. Cohn gained prominence four years ago during the televised sessions of the McCarthy Subcommittee hearings on Un-American Activities in the Armed Forces.

Pictured above, Cohn is conferring with McCarthy during the hearings.

# New Art Magazine Appears With Roualt's Poetry Today

A major literary first will mark the debut today of a new campus Emblication.

Impressions, a 24-page lithograph magazine printed by the Art Society, will go on sale at the College today for 25 cents. It contains what is believed to be the first published poetry of Georges Roualt, noted French expressionist painter who died in February.

The writings express Roualt's philosophy in poetic form. They are ex erpts from his correspondence with Prof. Andre Girard (2 () who studied under Roualt in Parls during the twenties.

#### Letters Translated

Prof. Girard, an evening session instructor, who joined the College faculty in September, translated the letters from French.

Other features of the new magazine include an interview with the Mexican painter F. Goitia, articles on the subsidy of art, subway art, and beauty, and original poems, woodcuts, sketches and paintings.

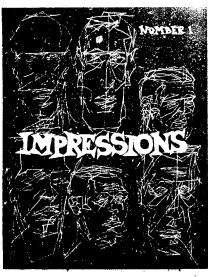

Impressions is the result of a

COVER of "Impressions" a new literary magazine published today by the Art Society.

year's planning by Ellen Lawrie '58, the editor. It was made financially possible by the two hundred dollar gross of an Art Sale at the College last term, and a grant from the Alumni Association.

"We felt a different magazine was needed at the College besides Mercury, Vector and Promethean," Miss Lawrie said. "Promethean is supposed to be an art-literary magazine, but contains little art.'

### Directed at Student Body

"Impressions is not directed at Art majors, but at the student body in general," she added.

The magazine will become an Edward Townsend (Education), annual publication "if sales are Prof. Sherwood Menkes (Mechan-sufficient and there are enough) ical Engineering), Prof. John students to work on it," Miss Hutchins (English), Prof. Miriam Lawrie said, Two thousand copies of the initial issue have been printed.

# News in Brief

Petition Deadline Tomorrow

Tomorrow is the deadline for filing petitions for Student Government office. They may be submitted in 332 Finley today from 12 to 5 and tomorrow from 11

### Math Team Honored

The College's Mathematics department team received honorable mention in the 18th annual William Lowell Putnam Mathematical Competition. The competition, held last February, was sponsored by the Mathematical Association of America.

Actuary to Speak

The Actuarial Profession will be discussed by Mr. Norman Brodie, Associate Actuary of the Equitable Life Assurance Society, in a program for freshmen sponsored by the Class of '41. The discussion will take place tomorrow at 3:30 in 200 Shepard.

Newman Club Breakfast

The Newman Club will hold its semi-annual communion breakfast Sunday in Our Lady of Lourdes Auditorium, W. 143 Street between Convent and Amsterdam Avenues, following a morning mass at 10. Tickets cost one dollar.

"Hansel and Gretel" on television last Sunday; ventriloquist Jimmy Nelson, a veteran of many television shows who will perform through the medium of his wooden cohorts, "Danny O'Day" and "Farfel,"; and night club comedian Zero Mostel.

The latter three guests will also act as judges for the Carnival Queen Contest later in the show. They will be aided by Baron D'Anethan, vice-consul from Belgium, and Saul Levinson, amusement editor of the New York World Telegram and Sun.

Five freshmen are competing Braune, Esther Hechler, Linda Lipnack, and Sandra Sarapjitt. Pres. Buell G. Gallagher will act Goodman will crown the queen.

### Flown to Brussels

The winner will be flown to Brussels and back via Pan American World Airlines. She and a companion will also receive an allexpenses-paid vacation at Lake Placid, N.Y., either for one week in the summer or a weekend during the winter. Among a host of other prizes will be an evening gown, a mink collar, shoes, and a silver tray set.

After the coronation the Musiin Eighty Ways."

played the female lead in "The produced by Tony Calabrese '59 Music Man," and who appeared in it is about a group of sailors who are quaranteened aboard their ship in the port of Brussels.

### 'Tent Too Expensive'

In contrast to last year's event the Carnival will be held without a tent. "The tent was too expensive, and limited our capacity,' said Joel Ax '60, co-chairman of House Plan's Carnival Committee. In case of rain the show will take to the road in true Carnival tradition and wind up in the Finley Student Center.

Tickets at two dollars per couple, can be purchased outside Knittle Lounge in Shepard Hall; in 331 Finley, at the entrance to for the title: Marilyn Bloom, Toni the Center; and from Raymond the Bagelman. Combination tickets for Carnival and the Student Government Moonlight Boatride, schedas master of ceremonies, and Miss uled for May 10, can also be bought, for five dollars per couple. Separately they cost six dol-

According to Frank Casper '59 the second co-chairman of the Carnival committee, 1,200 tickets out of a possible 3,500 have already been sold.

Mr. Jerome Gold (Student Life), faculty advisor to House Plan, predicted Tuesday that the Carnival would reach its climax at 2 in the morning. "At that time we will put the Finley Student Center into cal Comedy Society will present a orbit," he asserted. "It will be the show entitled "Around the World College's contribution to the Geo-Written and physical Year."

# One Candidate Seeks Position Of Student Government Pres.

By Carole Fried

Two days before the deadline for filing Student Government petitions, a single candidate has openly entered a race for a major office.

Mike Horowitz, '59, announced yesterday that he "definitely" will ar show; Barbara Cook, who run for SG president. He has not as yet submitted a petition, but will turn one in "as soon as I get the necessary signatures." Horowitz was defeated for the position in last semester's election.

While petitions with at least 75 signatures must be returned to SG tomorrow at 6, most student politicians would not commit themselves on their plans when quescting classes. The performances tioned yesterday. However, many petitions for the presidency have been circulated. The election will be held three days next week beginning Wednesday.

Although he has taken out a peplays, the former, a comedy by tition for the presidency, Harold Gotthelf '59 said yesterday that he performances will be given he is "not sure" whether he will y from 12 to 2 and tomorrow run. Last term Gotthelf unsuc-3 to 5 in the Townsend Har-cessfully sought the vice-presi-

A second potential president president.

lcandidate said that he would not run. He is Hank Bregman '59 who is currently the vice-president. He was appointed to the post last month to replace Arthur Genen '59 who resigned. Bregman said that he is not certain whether he will run for any other position."

SG secretary Burt Bernstein indicated that he will not seek another term in that office. Ken Werden '59, SG treasurer has filed a petition for the presidency of the Senior Class.

He may be joined in the race by Paul Kahan '59 who said that he will "most likely" seek the position. Kahan was a candidate for SG vice-president last term.

The only prospective female candidate for the SG presidency is Marilyn Rosenblum '59. But she too is unsure of her plans. "If either Bart Cohen (former SG president) or Hank Bragman runs I will not," she said.

Contingent on Miss Rosenblum's plans is a decision by Renee Roth '59 to seek the SG vice-presidency. She said she would run for the post if Miss Rosenblum runs for

# The Era of Good Feelings

By Edward Kosner

It is my professional misfortune as an apprentice journalist to be attending the College during what has come to be known as the Era of Good Feelings.

The boys who ran The Campus during the College's more flamboyant era a generation ago probably succumbed at times to nervous exhaustion from the strain of covering a campus where the President felt constrained to flail unruly undergraduates with a furled umbrella during an anti-ROTC demonstration and vocal student protests were the order of the day.

My forebears must have worn out their typewriter ribbons and the soles of their shoes, but they had a hell of a time.

When steeple jacks sawed down the flagpole last week some saw in the standard's castration the end of an era. In reality, of course, that era ended when Buell Gallagher took over the presidency here. (Try for a moment to imagine Dr. Gallagher fending of recalcitrant undergraduates with a big black umbrella.)

The new order is symbolized for me each time I have the bad luck to glance at the Reynolds-wrapped skeleton that teeters precariously on the South Campus lawn.

This, I have read, is supposed to be a replica of an Atomium—the chromium plated Iron evokation of the molecule that is the hallmark of the Brussels Fair.

I cannot, I suppose, castigate ingenuous freshmen who spend their leisure—and probably class—hours erecting giant tinker-toys to lure their fellows to the impending extravaganza. Nor have I the right-as an OP columnist seems to thing he has to prescribe huge doses of agitation to counter-act our current dissillusion.

Emotion is, after all, a reaction to a stimulus and if our present stimulants can do no more than goad us into building Atomiums, that is as it should be. The real threats—nuclear and economic disaster seem entirely out of our control; they enervate rather than stimulate.

Thanks in large measure to Buell Gallagher, there are no real threats to Acadamic Freedom here today. Student Council demonstrated this to my satisfaction not long ago when it fearlessly dispatched a letter to Batista protesting the closing of a Cuban university in 1956. All, it appears, is quiet on the home front.

Lest this send us scurrying to the lawn to build a trylon and perisphere to keep the Atomium company, I submit that there is a real-live problem that can legitimately command attention here on our own campus. It is the quality of the education we receive.

Although the freshman crammed into an already bulging Eco 101 section or harangued by the leather-lunged hawkers that prowl the entrances to the Finley Center may doubt it, there is more to the College than presents itself at first.

In time most students find it, and the diligence of the freshman semesters and the growing ennul of the next two years are transformed into a real desire to learn and a bleated recognition of how much remains to be done.

The tragedy is that this insight comes so late for most and too

Like contemporary America itself, the College—in the guise of "a well-rounded activities program"-presents all too many distractions to the individual who has not yet found a purpose or a girl. Student activities, virtually neglected a few decades ago, may now have wedged themselves too far into the academic spectrum.

No one can question their therapeutic effects for the thwarted adolescent, but I have the feeling that student activities offer an all too easy way out of the very real difficulties of getting educated-and I speak here with the sad authority of experience.

Nor is this to take the converse view that a four-year diet of readwill make Jack or Irving a modern Renaissance Man.

When the basketball team wins a double championship or students picket on Convent Avenue for something they feel in their hearts to be important, then the question of how the education we receive can be improved makes page five of a four-page newspaper.

But the tedium of the current academic year has its rewards. Even a casual reader of the student press could not have helped but that the issues of the day are the quality of our education at the College and how it can be improved.

Implicit in this concentration on the academic, is a widespread desire for a reevaluation of the whole "educational process" as it is doled out here.

Is there not too little intellectual discipline for the young student the freshman and sophomore—and far too much for the more mature student who knows what he wants to do and is hamstrung by academic regulations?

Shouldn't the social science courses be integrated in a coherent two-or three year package?

Why is it possible for a liberal arts student to graduate with virtually no exposure to the classics?

Wouldn't many students be anxious to enroll in an American studies program such as is offered at many other schools?

Why not more stress on honors work at the beginning, so that students can be goaded into preparing for it and not discover, as many upperclassmen do now, that their earlier lack of application excludes

Shouldn't there be more stress, too, on oral and written communication? The educational and linguistic backgrounds of students here show that there is a real need for it.

Why not more emphasis on prominent visiting speakers and less on pool tournaments, bridge competitions and folk dance instruction? These, too, are important, but not at the expense of worthwhile lecturers and such.

These are the questions—perhaps the only questions—that students are qualified to discuss and to try to resolve.

I'd rather be covering a riot and you'd probably rather be reading about one, but these are the real issues that confront us here today.

## A Fresh Start

After a false start it appears that students at the College will finally be able to benefit from a health insurance program sponsored by the College. The program, completely voluntary, will provide subscribers with coverage in cases of accidents or sickness for a full year.

The advantage of this plan over the one which fell apart earlier this term is that it is being processed directly by the College Administration through a student representative and an agent who has been investigated by the legal department of the Board of Higher Education. The previous program, with a different insurance company, had no official connection with the College and was handled by an agent who later turned out to be unreliable. Under the latest plan, Dean Peace's office will process applications and collect money from students.

The new plan is also available at a cost below that of the old one. The premium of \$16.20 applies to all students, male and female, and is possible because of the volume of subscribers anticipated by the company.

## Loosen the Vise

Before the recession closed in on the United States last year, the inadequacy of finances at the College which are derived from student fees was apparent. Currently, all phases of undergraduate life are affected by a lack of financial resources. Club programs have been curtailed and even nonparticipants in club activities notice the reduced publishing schedule of the College's two newspapers.

Student Council last night approved for the second semester a referendum authorizing a dollar fee increase. The referendum will be submitted to voters at elections next week. A similar referendum was defeated last term, but, unfortunately the financial outlook has not improved since that time.

While regretting that a detailed investigation of the exact amount required in the way of a fee raise was not under-

taken, we **urge the support of the referendum.** As explained today in THE CAMPUS, the Student Faculty Fee Committee achieved during the term savings of \$250. But this was at the expense of minor publications on campus. An additional \$900 savings hinges on how agreeable the Finley Center is to assume greater financial burdens.

A fee increase is the sole chance of loosening the financial vise currently gripping student activities.

Homecoming Day

The Alumni Association will hold its 106th annual homecoming day Saturday. In attendance will be the College's two most prominent alumni — elder statesman Bernard Baruch and Supreme Court Justice Felix Frankfurter. Mr. Justice Frankfurter will deliver the keynote address.

While undergraduates have always been welcome at these annual gatherings, the alumni have usually been left formed, including works by Mozart, to themselves, isolated from the contemporary student body. Handel, Schubert, Chopin, Grieg Contact with the graduates is certainly to be encouraged, especially now when the Association is playing such a significant role in the promotion of student activities in general and the Finley Student Center in particular.

We hope that the presence Saturday of two distinguished personalities will in some measure induce undergraduates to meet the alumni and begin to heal the dicotomy between the two groups.

### Music Festival Set For Tom'w at Ten

The semi-annual Music Festival will be held tomorrow from 10 to 3 in the Aranow Auditorium.

The program, sponsored by the newly formed "Friends of Music," will consist of six concerts.

A variety of orchestral, choral and chamber music will be perand Puccini.

Highlighting the Festival will be an open chorus rehearsal at 1 of Brahms' German Requiem, which is being prepared for the Spring

Concert on May 10 and 11.

# **Letters to the Editor**

Editor's Note:

Disappointment with the structure of our higher educational system and with students' general antipathy toward education was expressed in the letters column several weeks ago. The original letter provoked many comments including the following discussion of our educational system.

### WHERE PROBLEM LIES

The problem in our education system lies in a lack of understanding of its role in society and in the students' lack of purpose, not in a lack of facilities or money. No amount of school rooms and laboratories can make the student want to learn. Without that want meaningful education is impossible. We need motivation more than money.

The student in college now is there for one of two reasons; either to make sure of a secure income when he leaves the protective walls of the college or because inertia has set in. These are not effective purposes.

In many other countries purpose is no problem. Russia, in the exuberance of her youth has to demonstrate her power and flex her missiles both atomic and cultural, a project which is occupying the minds and resources of her entire people. Other countries like England or Greece have a great, cultural heritage to maintain. We have neither youth nor a great cultural heritage.

Where are we to go? Toward what effective goal are we to strive?

As I see it, the answer is inherent in the fact that our society has constructed an educational system for its own benefit. The individual must therefore take his education (especially a free one) with the idea in mind that the tools he acquires are to be used to benefit society. In essence it is the spirit of giving, the social conscience which President Roosevelt had always upon his lips. It embodies the realization that there are other people in the world, people who could use help; that in helping these people lies our only hope of effective productivity and of happiness. With this in mind education achieves a new meaning and gains a new vitality. The student is no longer studying with a selfish standards. While I would be jus limited goal of money or prestige pleased as Mr. Sklar would be but is aiming toward a higher goal, see the renascence of dedicat that of building himself so that he and of "purpose" in our scho

As I write these words I can almost feel the scorn and ridicule culture as deferentially as it tre they must provoke from those like more "practical" pursuits, Mr. Bachner who are unwilling to see that it is here in the educa-teachers are really much more tional philosophy or the lack of one mirable individuals than insura that the problem with our education system lies. Must you and I, as Mr. Bachner suggests, sit around and "await the Millenium" when suddenly the entire population shall arise en masse in realization of its folly? I prefer to strive to seek a solution rather than to wait in this dismal darkness for the day of light and revelation. Whether you accept my briefly

stated pupose or not, you must adopt some forceful and productive purpose for yourself, for without a significant raison d'entre our education system is doomed to eventual stagnation. And with a stagnant education system the society which is founded upon it must stagnate also. It is here at the college level that improvement must be initiated, for it is here that the that the situation is not as backer, besi Admission to all performances is teachers and builders of the future it really deserves to be. Alan Sklar '59 are born.

### DEFENDS: EĐUCATION It is almost repetitious to poi

out that the morale of the Amer can educational community coul bear much improvement. Mr. Skla seems to have succumbed to the current tendency to blame every i real and imagined, on our scho systems: If the Soviets steal technological march on us, it is th fault of our educators; if juveni crime grows, the schools are blame for not providing their st dents with a home life, psychiatr service, religious counselling, well as education (yet Mr. Sklar convinced that what the school need is "motivation more th money" and that "no amount school rooms and laboratories o make the student want to learn The most glaring logical error

Mr. Sklar's argument is the i plied assumption that the mora the ambition, and the dedication the -educational community is thing apart, obeying forces distin from the trends and currents th are motivating society in gener At the risk of dampening the pected moral revival that Mr. Sk is advocating, it must be point out that students and educators essentially, in the mass, no diff ent from the rest of the populati If we want to know why our s dents and teachers are not me dedicated we must also ask w aren't our lawyers, doctors, po ticians, engineers (the list is ca able of infinite extension) mo dedicated.

It will not come as any gre surprise to point out that the re tive importance of cultural and tellectual pursuits in the nation scale of values is less than what should be. In spite of the increa attention paid to educational pr lems since Sputnik, a rather happy situation evidently still vails when we consider the deg of support and prestige that American public and government extend to learning and culture should be apparent that the ina quate material conditions un which American education lab as is in turn the lack of incentive our school and college populace but the consequence of general p lic and governmental apathy in face of a deterioration in cult and colleges, until the nation large chooses to treat learning When it becomes clear to all t

executives, that scientists are n than peculiar souls possessing mystical skills that will enable in the projected nuclear Armag don to incinerate sufficient n bers of the enemy to be comm surate with both our losses and national prestige, and that, haps, a musician, artist, or poe no more of a social supernumer than an advertising man, then, Sklar, our vigil will have ended

When these hopes are realize will be sufficient time to pro moral uplift proposals for our dents and educators. Until then, had better stop casting undeser bricks at an educational sys that in view of its many handid is muddling through as best it indeed, one can't but be than school instru

# Why Aren't Students Articulate?

# Effective Expression of 'Good Ideas' Is a Major Problem for Undergrads

By Alice Nadel

The freshman stood at the front of the classroom, uncomfortably trying to assume a casual stance. He scanned the sheets of paper in front of him for the hundredth time, then looked up at the circle of faces which only a moment before had been a friendly group of classmates collectively known as Speech 1Y.

"Are you ready? Remember, one minute," said the professor.

"Yes," the boy said. "My topic is 'A Summer at the Beach." He cleared his throat. "A summer at the beach . . . can be a lot of fun. Playing basketball, swimming, sunbathing . . . are . . . a lot of fun. Athletics are a very healthy activity . . . which you can get a lot of at the beach."

The boy paused, looked down at his illegible notes, and continued: "Besides sports, you can also have a lot of . . . a good time on the boardwalk. There are a lot of activities there which . . . you can do, like pokerino" - the class laughed - "penny arcades and miniature golf."

### Anxious to Finish

There was another pause, this one so extended that many of the students lowered their eyes in embarrassment. Finally the boy started talking again, his eagerness to finish, betraying itself in a rush of words.

"When you come home from the beach, you have gained a lot. You have had a summer of healthy activity. You have a nice tan. And you have pleasant memories to last you until the next summer."

The boy shook his head in the general direction of the professor, gathered his papers hastily in a pile, and, blushing, shuffled to his seat eyeing the floor.

Although Speech 1Y is purely hypothetical, the situation is one that is often repeated in speech classes, and, for that matter, in required and even elective English courses. The fact of the matter is that many students at the College cannot express themselves coherently in either oral or written English.

One of the primary factors contributing to the students' inability to communicate is their educational background. Virtually no speech courses are given in the high schools and instruction in even the fundamentals of writing grammar — is generally very sketchv.

to be comm English Professor Marvin Magalaner, who has taught the subject at James Monroe High School, believes that the students' attitude is partly to blame.

"If you give high school stuhave ended dents grammar, they say, 'Why are realize do we have to learn this? It ain't ime to pro nneresting.' And it 'ain't'! But, als for our except for students with natural Until then ability, a sound grammatical ing undeser background is indispensible for writing correct English," he said. Dr. Magalaner sees another difas best it iculty in the work load of high ut be than school instructors. "The average s not as backer, besides guidance, home room and lunch room duty, teachaul Bachneres about two hundred students

each term. To assign a theme even every other week means marking two hundred papers. most of which need a half-hour's revision before they are evenrecast into sentences. And when you return the themes, the student looks at his mark, says '75? Phooey!,' rips up his paper, and all your work has gone to provide more wastepaper for the janitor."

Another member of the English Department, Prof. Irving Rosenthal, sees the roots of the problem in the precepts of progressive

"The policy of the Board of Education when most students now at the College were in secondary schools was a progressive one," he explains, "and the progressives believed in descriptive rather than prescriptive instruction. As applied to writing, this means, that the student was expected to write correct English instinctively, as he would speak correctly if exposed to the proper environment. Prescriptive grammar - learning about parts of speech and analyzing sentences was frowned upon."

Like Professor Magalaner, Professor Rosenthal believes that certain students have "a natural flair for sentence structure," but that most need a thorough grounding in grammar.

According to Professor William L. Finkel, chairman of the Speech Department, the family background of students at the College

PROF. MARVIN MAGALANER

often contributes to their unwillingness and inability to express themselves clearly.

"Most of the students here are members of minority groups," he noted. "More than that, many of them come from homes where another language is spoken and some do not have English as their own native language. Because of

Students are more prone to conversation in casual surroundings.

their fragmentary or imperfect childhood orientation, those students are not at home linguistically with English."

A survey of 2,337 students regin speech courses in the spring of 1954 showed that 21 percent of the group had a native language other than English. One or both of the parents of another 45 percent did not speak English as a first language. And of the remaining 34 percent whose parents did have English as their native tongue, 10 percent-3 percent of the total - reported another language spoken in the home.

Therefore, fully 69 percent of the group were exposed in varying degrees to other languages during their childhood. The report concluded that the unusual social and linguistic background of students at the College is reflected in their attitudes towards themselves and others and affects their self-expression.

Professor Finkel also feels that the students' educational background does not provide sufficient opportunity for oral communica-

### Reluctant to Debate

"Where else but in a speech class does a student get to speak for five, three, or even one minute at a time?," he asked rhetorically. "People don't like to talkaside from casual conversationbecause it is not part of their experience."

Moreover, the chairman maintains that students are often reluctant to take a stand on an issue in public, as they are required to do in Speech 3, for

Professor Finkel emphasizes the importance of coherent selfexpression in the students' postcollege career. He feels that the speech department at a liberal

arts college should be concerned with "more than simple utterance."

"We want to inculcate in the student a critical awareness of how much speech shapes his social and professional life," he said. "We want to make the student aware of his initial level of communication and motivate him towards increasing his effectiveness. After all, a person's advance in his vocation — even if it is a technical one — is to a large extent dependent upon his ability to express himself.'

In this connection, Professor Magalaner cites the many cases of students — particularly at the Baruch School — who are admirably equipped for the technical aspect of their professions, but cannot write grammatical English. An accountant who knows his profession is in trouble if he can't write a grammatically correct letter to a client," he said.

The inability of students at the College to communicate is all too prevalent, even at the elective level.

"I find that the term papers I get in elective literature courses — many from English majors who are going to teach the subject — show good thinking but are often clumsily written," Professor Magalaner reports. "The students have good ideas but they can't express themselves."

Instructors of both departments feel that, although a conscientious student can benefit preatly from the present curriculum, improvements in procedure are war-

A proposal now being considered by the speech department would substitute three concentrated three-hour courses worth two credits each for the present requirement. Professor Finkel feels that "the existing one-credit courses are not valued by the students. Also, since we can only assign one hour of outside work a week it is impossible to motivate students towards the thorough preparation which is essential." (The College Bulletin defines a credit as three hours of work a week including class time; the prescribed speech courses meet for two hours weekly).

#### **Exemption Tests Given**

A recent change in procedure in the English Department is the administration of exams in grammar and composition to incoming freshmen. Those who show themselves to be competent in both fields are exempted from English; those who are deficient in one are are assigned English 1 and students deficient in both are required to take remedial English.

Several additional innovations have been proposed. One is to make the English entrance requirement a qualitative as well as a quantitative one, and have students assigned to remedial English pay for the course so as not to divert teachers from the regular sequence of college-level courses. Another suggestion is to institute a junior-year exam in written English. Any student found deficient would have to meet the standards before grad-

Professor Magalaner has a recommendation aimed at improving high school instruction. "If we informed each high school of the number of its graduates who were found deficient on the entrance exam, perhaps the schools would 'get mad' and raise their English standards," he said.

Despite this rather grim picture, students here may find solace in the conclusion of a recent survey of colleges across the country which found that conditions elsewhere are - if anything — worse.

As one member of the English Department put it: "Despairing colleagues at other schools tell us, 'If you find a way to teach these kids how to write English, for heaven's sake let us know about it."

### Pershing Rifles Aim For Drill Meet Win

The College's chapter of the Pershing Rifles will compete in the annual Eighth Regiment drill meet Saturday at the Jersey City Armory.

Fourteen colleges and universities in the New York-New Jersey area will compete for the coveted Drill Meet Trophy. The College's team has won the meet for the past two years, and a victory Saturday would give them permanent possession of the trophy.

The competition in standard in-Cantry drill will begin at 8 in the norning with the trick drill set for the afternoon. Five hundred points will be awarded to the winner in each division. Last year the College scored 952 points, the highest total ever registèred.

The other entrants are Cornell, Fordham, NYU, Syracuse, Brooklyn College, Brooklyn Polytech, Pratt, Seton Hall, St. Peter's, New York State Maritime College, Hofstra, Coast Guard Academy and the Clarkson College of Technology.

## Insurance

(Continued from Page 1)

students will be sent to Dean Peace, Student Government, and the insurance company broker.

• The College will be responsible for checking on the insurance company and the insured students.

The College must approve and officially endorse the new program before it can go into effect in September 1958. If any expenses are incurred by the College in the operation of the plan, full reimbursement will be made by the insurance company broker.

The broker participating in the plan is Leonard Davis and Company and the insurance firm is the Continental Casualties Company.

According to Bisnoff, coverage will be slightly more extensive than in previous programs. He said that the cost of the insurance would be 25 per cent less than that of this year's plan.

## Israel

(Continued from Page 1) economy, Dr. Gallagher observed

that the government's philosophy is to provide employment to the greatest number of persons. "The outlook is not unlike that which existed in the United States during the depression," he said.

The President moved to observations of internal tensions stemming from Israel's highly cosmopolitan population. "Israel is more than a melting pot-it is pressure cooker," he suggested. Knitting together the diverse populace is a major task facing the Israeli government, he said.

Dr. Gallagher expressed the belief that Israel's people "have graver fears about the future of Jews in Russia than about the threat from Nasser, (President of the United Arab Republic)." The country is firmly convinced that it can deter Nasser, but it cannot control the fate of three million Jews in the Soviet Union, Dr. Gallagher explained.

He spoke slowly and in a tone which indicated he had subjected his impressions to analysis. He declared, however, that "I shall need many months to sift the significance of what I have seen." He cautioned, "I may have oversimplified matters, and these impressions of a chance visitor certainly are not authoritative."

### SWEENEY IN THE TREES

Spring is here—the season of tree-sitting contests. This I applaud. Tree-sitting is healthful and jolly and as American as apple pie. Also it keeps you off the streets.

Tree-sitting is not, however, without its hazards. Take, for example, the dread and chilling case of Manuel Sigafoos and Ed Sweeney, both sophomores at the Nashville College of Folk Music and Woodworking, and both madly in love with a beautiful alto named Ursula Thing, who won their hearts singing that fine old folk song, I Strangled My True Love with Her Own Yellow Braids, and I'll Never Eat Her Sorghum Any More.

Both Manuel and Ed pressed Ursula to go steady, but she could not choose between them, and finally it was decided that the boys would have a tree-sitting contest, and Ursula would belong to the victor. So Manuel and Ed clambered up adjoining aspens, taking with them the following necessaries: food, clothing, bedding, reading matter, and-most essential of allplenty of Marlboro Cigarettes.

We who live on the ground know how much you get to like with a Marlboro. Think how much more important they must be to the lonely tree-dweller-how much more welcome their fine, mild tobacco; how much more gratifying their free-drawing filters; how much more comforting their sturdy, crushproof flip-top box. Climb a tree and see for yourselves.

Well supplied with Marlboros, our heroes began their treesitting contest-Manuel with good heart, Ed with evil cunning. The shocking fact is that crafty Ed, all unbeknownst to Manuel, was one of three identical triplets. Each night while Manuel dozed on his bough, one of Ed's brothers-Fred or Jed-would sneak up the tree and replace him. "How can I lose?" said Ed with a fiendish giggle to his brother Fred or Jed.

But Ed had a big surprise coming. For Manuel, though he did not know it himself, was a druid! He had been abandoned as an infant at the hut of a poor and humble woodcutter named Cornelius Whitney Sigafoos III, who had raised the child as his own. So when Manuel got into the tree, he found much to his surprise that he had never in all his life felt so at home and happy. He had absolutely no intention of ever leaving.

After seven or eight years Ed and his brothers wearied of the contest and conceded. Ursula Thing came to Manuel's tree and cried, "I am yours! Come down and pin me."

But Manuel declined. Instead he asked Ursula to join him' in the tree. This she could not do, being subject to mopery (a morbid allergy to woodpeckers), so she ended up with Ed after all.

Only she made a mistake—a very natural mistake. It was! Jed, not Ed, with whom she ended up.

Ed, heartbroken at being tricked by his own brother, took up metallurgy to forget.

Crime does not pay.

This column is brought to you by the makers of Marlboro Cigarettes who suggest that if you are ever up a tree when trying to find a gift, give Marlboros. You can't miss!

# Runners Face Rugged Knights

### Seek 2nd Victory In Lewisohn Saturday

A major obstacle in the path to a second consecutive undefeated season will confront the College's track team Saturday when the Beavers meet Fairleigh Dickinson at 1 in Lewisohn Stadium.

Coach Harry deGirolamo figures the Knights will be the cindermen's toughest opponent this season. "If we can get by Dickinson, we should sweep our remaining wo meets," the coach said.

But deGirolamo cautioned that the Knights will be a difficult squad to defeat. "We beat them only by a few points last year, and from all indications they are ners overwhelmed the Panthers, better team this season," he

The coach is still faced with the problem of a weak field team, and hopes his runners can score sufficiently against the Knights to overcome this burden. In the openng triumph over Adelphi, the run-

FISHERMEN RUN OUT OF LUCKIES?

( SEE PARAGRAPH BELOW )

Yen Den

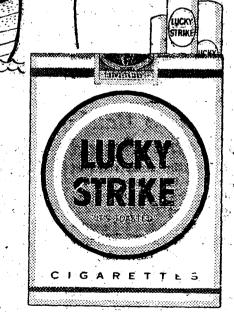

WHAT'S A POORLY LIGHTED

Dim Gym

MARTIN GILBERT.

U. OF ARKANSAS

IF SILENCE WERE REALLY GOLDEN, fishermen would be up to their hip boots in cash. They're so noiseless, they won't even wear loud shirts. But when they (Groan!) run out of Luckies, they almost lose control. They rant, rave and blow their stacks-all in sign language, of course! Result? The unusual phenomenon called a Quiet Riot! Lucky's popularity, after all, is no fluke. A Lucky is the best-tasting cigarette you can buy-and for good reason. It's made of naturally light, goodtasting tobacco, toasted to taste even better. So why flounder around? Get Luckies yourself!

Stuck for dough? START STICKLING! MAKE \$25

We'll pay \$25 for every Stickler we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

# Over Kingsmen, 8-1 Beavers Still Seek

suffered his first loss yesterday

after four straight victories.

By Mike Katz

Led by the play of Mike Stone, the College's tennis cam trounced Brooklyn Colge, 8-1, yesterday at the losrs' courts. The victory was he netmen's fourth in five

After compiling a four game inning streak in the Beavers' revious outings, Bernie Steiner, ie College's top player, suffered is first setback against the Kingsien. As a result, the contest beween Stone and Fred Troise beame a key match for the Laven-

Stone fell behind 4-1 in the first et, but rallied to win, 9-7. He reeated the pattern in the next set. fter trailing 4-1 again, Stone ent on to win the set, 6-4, to pture the match.

"Stone's win was the big differice," Coach Harry Karlin said ter the match. "If we had lost e first two singles matches, the ys might have started to worry, ad press."

Steiner, after losing his singles atch in straight sets, 6-2, 6-2, me back to team with Stone in e number one doubles match. cing Steve Kowit and Troise.

Smarting from the loss. Steiner larged the net, and time and time rain placed the ball either past e Kingsmen, or beyond their ach With Stone also playing gressive, intelligent tennis, the aver pair won in straight sets,

Sophomore Ronnie Ettus found me difficulty with the Kingsen's Larry Levine, having to exnd himself to three sets before inning 4-6, 6-4, 6-0. Levine, connt to just send back deep lobs, viously bothered Ettus. But by e last set the Beavers' number aree player had solved the unthodox style by getting the rooklynite to come in closer to

The other Beaver wins came in raight sets. Jay Hammel, Ray estrong, and Roy Fleishman wining in singles play, with Hammel nd Fleishman also winning a oubles match. Seymour Silver and tark Buckstein captured the mal doubles for the Lavender.

## Stickmen to Battle West Point Squad

Moving into the final third of s season, the College's lacrosse am will face the Army "B" team aturday at West Point.

The Beavers, who are 1-4 on the ason, must win their remaining aree contests to conclude the ampaign at .500. Judging from he stickmen's performances durng the season, however, this would seem to be a remote possibility.

Inexperience, a weak bench and poor conditioning have hampered he Lavender, according to Coach Leon "Chief" Miller. As a result, the Beavers have yielded more than wice as many goals as they have

# Netmen Win Fourth Nine Meets Hofstra Today

# **Initial Triumph**

The College's baseball team begins its second swing around the Met League today by meeting Hofstra at 3 in Babe Ruth Field.

A league contest with Manhattan was postponed yesterday because of wet grounds. The game was originally scheduled for Tuesday, but was washed out by rain.

In the league cellar with an 0-6 record, the Beavers go into today's contest with a good chance of copping their first victory in eleven games, according to Coach John LaPlace. It's been a disappointing season for the Lavender, but LaPlace feels his boys are about ready to take one.

"We've got a good team," insisted the coach," all that's been missing is a combined effort from our hitters and pitchers.'

With two exceptions, the Beavers will field their usual lineup.

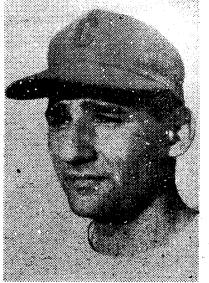

Photo by Leuhrig BACKSTOP: Bill Nicholas returns to his regular post behind the plate today.

Weiss at third base and newcomer Pete Magnani starts at first. Righthander Luby Mlynar will be on the mound for the College, with Bill Nicholas returning as his bat-Bob Adler takes over for Ronnie tery mate. Nicholas was tested at

## **Manhattan Contest** Is Postponed

third in the Fordham game, but will be moved back behind the plate today.

Pitching for the Dutchman will be ace lefthander, Joe Laspagneletta. The Dutchman star went the distance when Hofstra edged the Beavers, 3-2, earlier in the campaign.

Third baseman Bob Marstom, first sacker George Demster, and leftfielder Vinnie Venditto are the Dutchmen's leading batters. Hofstra owns a record of 5-7-2 with two wins and four setbacks in league play.

### Frosh Nine

ball team will meet Hunter Saturday at 10 on the Hawks' field

The College's freshman base-

The yearlings will be vying for their second win in four
