City Colleges Rank Second in Doctorates

Municipal colleges rank second in the nation in producing graduates who eventually receive doctorate degrees, a Board of Higher Education announced Tuesday. A report presented to the Board by Carl Max, BHE administrator, showed that the city colleges ranked second to the University of California by only 27 graduates. Between 1936 and 1956, the municipal colleges graduated 3417 per cent who obtained doctorates. The report said that the municipal colleges granted two per cent of bachelor degrees in the nation and four per cent of the doctorates who later received them. The report stated that the College "deserves special note." The number of College alumni who received doctorates was second only to the Berkeley campus of the University of California, the report found. The four city colleges led all schools in the number of graduates who received Ph. D's in physical sciences, mathematics, social sciences and education. They were second in humanities and third in the biological sciences, the report stated.

Program on Dewey for 12 Today

JOHN DEWEY

The College will present today the first of two programs in observance of the centenary of the birth of John Dewey, the philosopher and teacher. The program will be held at 12:30 in the Aronow Auditorium. Prof. Yervant Krikorian (Philosophy) will serve as emcee, and Prof. Henry Magid (Philosophy) as commentator. The program will seek to evaluate Dewey's influence on American thought and education. The second program in the series will be held November 12. The program is co-sponsored by the College chapter of the American Association of University Professors and twelve student organizations.

Tech Opinion Divided On Liberal Arts Courses

Elective System Affects Chem E's

By Barbara Blumenstein

Chemical engineers here were offered liberal arts electives — from Primitive Art to Unattached 8 — this term for the first time.

Opinion on the program covers no middle ground. The students involved were very enthusiastic or vehemently opposed.

The main objection was that the electives took away time from technical studies. Other objections were that five credits of electives did not permit more than a superficial study of a subject, and that liberal arts could be learned without an instructor's help.

Supporters of the program said the electives gave them "relief" from a steady stream of engineering courses. They said the program provided an opportunity to go deeper into subjects that interested them, and to hear the opinions and ideas of liberal arts students.

Dean William Allan (Technology) generally concurred with students' objections. Most engineers at the undergraduate stage are interested only in technology, the Dean said.

On the other hand, the program was wholeheartedly endorsed by the chairman of the Chemical Engineering Department, Prof. Alois Schmidt. He said he believed that most students are "highly satisfied" with it.

The Chemical Engineers take the electives during their junior and senior years. Students choose the electives in the arts, languages and social sciences.

Engineers do not need the normal prerequisites in order to take electives in Comparative Literature, Government, History, or Philosophy. The fundamentals of these subjects are covered for the engineers in special courses in Social Studies and Humanities.

Auto Precautions Issued by College

The Department of Student Life has warned students and members of the faculty who park their cars near the College to take precautions against theft.

The Department urged car owners not to leave property on the seats or on the dashboard of their cars. It asked drivers to lock valuable objects in the glove compartment or trunk.

"Most any automobile can be opened with an ordinary beer can opener. If this fails, a window can easily be broken by smashing it with a rock," a spokesman for the Department said.

The Department also warned drivers that it is against the law to park on Convent Avenue between 138 and 140 Streets.

DEAN WILLIAM ALLAN said undergraduate engineers are not receptive to liberal arts courses.

There seem to be as many student supporters as opponents of the elective program. However, those who are against the system tend to be more vocal than those who favor it.

The most outspoken foe of the elective program interviewed (Continued on Page 3)

The Music Might Not Play On If Repairmen Keep Hammering

ROAD TO MUSIC: Floor of corridor leading to Aronow Auditorium, the College's concert hall, is being retiled.

The road to music education here is being repaved.

Workmen started yesterday tearing up the tile floor in the corridor that leads to Aronow Auditorium, the College's concert hall.

According to Mr. Kenneth Fleming (Buildings and Grounds) the tiles were of poor quality.

"Every so often Dean Peace would ask us to replace a tile that popped up. No sooner did we put it back in place than another one, often the one next to it, popped up," Mr. Fleming said.

The department finally decided that replacing the floor with a higher grade tile would be cheaper than repairing it. The

'Filthy' Campus Here Blamed on Students

By Fred Martin

Dean James S. Peace (Student Life) said yesterday that students here have made the campus "one of the filthiest in the country."

He charged that most of the "dirt and filth on the campus is due to inconsiderate acts of the students.

"The cafeterias are always sloppy and the corridors and stairwells in the Finley Center are constantly littered with cigarette butts and all sorts of rubbish. On any nice day the South Campus lawn is covered with papers," he added.

Dean Peace said that if the situation does not improve, steps will be taken by the Department of Student Life to see that it does. The department is responsible for students' actions, the Dean said.

He said that he did not have any regulations in mind except a possible ban on smoking in the corridors and stairwells of the Finley Center. "I hope students will improve the situation voluntarily," he said. "I would hate to impose restrictions."

Dean Peace said that company representatives interviewing job candidates here have commented unfavorably on the College's appearance. "One representative told me that it was by far the dirtiest

DEAN JAMES S. PEACE

college he had ever seen," the Dean said.

Students also have tampered with the fire hoses at the College, according to Dean Peace. "The nozzles are often stuffed with paper, and in some cases removed completely. Also, pencils and other sharp objects have been pushed into the hoses, and when they were tested, the water came through the sides," he said.

Dean Peace said that the students' negligent attitude also has cost the College money. "Last year we had to spend approximately six thousand dollars repairing the furniture in the Finley Center," he said. "There were cigarette burns in the chairs and rugs and the backs of many of the chairs were broken."

He said that the rug in the Trophy Lounge had been cleaned recently and there already were cigarette burns in it.

"I have sat in the cafeteria and watched students grind out their cigarettes on the table tops," he added. "And five minutes after the Center is swept, there are cigarette butts all over the floor."

MCS Has Heart — But Needs Cast

The Musical Comedy Society wanted Lola, and got her.

In fact, the club has several Lolas, but is still seeking others to try out for the part of the temptress in the forthcoming production of "Damn Yankees."

The final general casting call will be held today at noon in 417 Finley.

Sid Gold '60, president of the Society, said the group also is seeking someone to play Joe Boyd, who sells his soul to Applegate, the devil, in order to become a baseball star. The roles of Boyd's wife Meg, and Gloria, an aggressive reporter also are being cast.

Joe Villane, a professional actor, will direct the play. Villane has credits in summer stock, and has danced in the Broadway productions of "Annie Get Your Gun" and "Oklahoma."

Too Few Charlie Dooleys

The College's campus has been called "one of the filthiest in the country" by Dean Peace. The Dean based his charge on personal observations of other colleges and on the comments of traveling company representatives. Even a casual look around the campus or a brief walk through some of the buildings here is sufficient to substantiate the Dean's charge that our campus is "filthy." In fact, it is conceivable that we have the filthiest campus in the country.

Each year the College spends a considerable sum of money to keep the campus clean. But the City of New York spends even a greater annual sum to keep the city clean, and it is still considered one of the dirtiest cities in the world.

Maybe students here have become so used to living in a filthy city that if the campus were clean they would be uncomfortable. This seems to be the only explanation for their littering the campus with rubbish and maltreating the furniture in the student center.

Dean Peace said that if the situation is not improved on a voluntary basis, regulations will be imposed to remedy the situation. Undoubtedly, accompanying such regulations would be an indignant outcry from the students charging that the administration had infringed upon their rights. The College does not want to impose any restrictions because it feels that the students should have enough college spirit to keep the campus clean voluntarily.

The money spent on maintenance would not be diverted from the College if students made a concerted effort to improve its appearance. This money could be used to greater advantage in other areas that would be more beneficial to students.

It is time that students measured up to their responsibility to keep the campus clean.

The Instructors

Students in four math classes today are wondering who their teacher will be or whether anyone at all will come to conduct their classes. They had the same problem yesterday and will have it tomorrow, because the Mathematics Department is short of teachers.

The Department had enough instructors at the beginning of the term. But two became ill and one had an accident—all within the space of a month.

It is true that this problem rarely occurs at the College. Prof. George Garrison, chairman of the Mathematics Department, says he has not "encountered a situation this bad since I took over as chairman in 1952."

However, the fact remains that students in four math classes have been deprived of adequate instruction for more than a month.

Professor Garrison has conducted an intensive search for math instructors. The problem is not that the Department receives inadequate funds, but that math teachers are hard to obtain, especially in the middle of a term.

Despite this handicap, it appears that several of the classes eventually may receive professional instruction. In the event it becomes impossible for the department to obtain the highest caliber of instructor, we suggest that use be made of some of its top undergraduate students to teach classes until replacements are found. The caliber of instruction might not be as high as desirable but it would be better than no instruction.

News in Brief

Casting "Ruddigore"
The Gilbert and Sullivan Society is casting for "Ruddigore" every Thursday from 6 to 9 in 417 Finley. Tryouts are not limited to singers.

Drop Deadline
Tomorrow is the deadline for resigning from fall term courses without penalty. Information may be obtained in 115 Shepard.

Vector
Vector, the College's engineering magazine, will be on sale on North Campus next week on Monday, Wednesday, and Thursday.

Tea Time
The Education Society will sponsor tomorrow's Student-Faculty tea at 3:00 in the Finley Center Buttenweiser Lounge.

International Night
The Student Zionist Organization's Semi-Annual International Night will be held Saturday at 8:30 in the Grand Ballroom of the Finley Center. A program of entertainment has been planned. Tickets are 75 cents for SZO or Hillel members, \$1.25 for all others.

Festival Debate
The Debating Society will hold a debate today at 12:15 in 217 Finley. The topic: "Resolved: That the Vienna World Youth Festival was a significant force in promoting better understanding amongst international youth."

The affirmative position will be taken by Marvin Markman and Sandra Rosenblum, and the negative position will be taken by Mike McNulty and Jay Freeman. All four students attended the Festival.

Theater Party
A theater party to the off-Broadway production of "Summer of the Seventeenth Doll" is being planned by the Student Government Cultural Agency for the night of November 10. Tickets are \$1 and \$1.80 and may be reserved in 152 Finley.

House Plan Sing
House Plan is sponsoring a sing today at 12 on the South Campus lawn. A contest will be held to pick five houses that have a song or cheer which "best typifies House Plan spirit."

Mercury
Mercury, the College's humor magazine, now is accepting humorous or satirical stories, cartoons and jokes with a College slant. Material may be submitted in 331 Finley.

Promethean
The deadline for submitting manuscripts to Promethean, the College's literary magazine, is November 16. Any undergraduate may submit material in 431 Finley.

HP Invitation
Married and engaged coeds are invited by the House Plan Association to form their own House. Students interested should apply in 317 Finley.

Club Notes

All clubs meet today at 12:30 unless otherwise noted.

- AICHE**
Meets in 103 Harris.
- Art Society**
Holds a modeling session in 101K Elsner.
- ASCE**
Meets in 301 Compton. Films will be shown.
- ASME**
Meets in 126 Shepard. This is the last meeting at which new members can enroll.
- Astronomical Society**
Meets at 12 in 16 Shepard.
- Baskerville Chemistry Society**
Meets in Doremus Hall. Attendance is mandatory.
- Beaver Broadcasters**
Meet in 10 Klapper
- Caduceus Society**
Shows film, "Journey into Medicine," in 5 Shepard.
- Carroll Brown Hellenic Society**
Meets in 111 Wagner.
- Cerele Francais du Jour**
Prof. Leblon (French) will lecture on "Ancient Medicine" in 63 Downer.
- Christian Association**
Holds "College Bowl" in 438 Finley.
- Club Iberamericano**
Presents concert of Spanish music at 15 in 302 Downer.
- Debating Society**
Presents debate on the Vienna Youth Festival at 12:15 in 217 Finley.
- Dramsoc**
Meets in 440 Finley.
- Economics Society**
Takes a trip to the United Nations. Interested should meet at 12:15 in Wagner.
- Education Society**
Sponsors a tea in Bittenweiser Lounge tomorrow at 3.
- Friends of Music**
Meets at 12:15 in 228 Goldmark.
- Geological Society**
Meets in 307 Shepard.
- Gilbert and Sullivan Society**
Holds rehearsal for "Ruddigore" from 9 to 9 in 417 Finley.
- Government and Law Society**
Mr. Jean-Francois Roux, First Secretary of the French Embassy, will discuss the French policy on Algeria at 12:25 in 106 Downer.
- Hillel**
Holds open house at Hillel House, 475 St 140 Street, from 12 to 2.
- Humanist Society**
Presents a discussion in 130 Shepard birth control and abortion.
- Il Circolo Dante Alighieri**
Meets in 101 Downer.
- Inter-Varsity Christian Fellowship**
Dr. Peter Hoogendam will speak on "How Can God Become Real to Me?" at 12:30 in 206 Harris.
- Modern Jazz Society**
Invites student musicians to perform in Finley.
- Musical Comedy Society**
Holds casting for "Damn Yankees" at 12 in 417 Finley.
- Newman Club**
Meets at 12 at 469 West 142 Street.
- Outdoor Club**
Meets at 12 in 312 Shepard to discuss plans for the next hike.
- Physics Society**
Presents Mr. Todorovich who will speak "The Anatomy of Quantum Mechanics" in 105 Shepard.
- Promethean Workshop**
Meets tomorrow in 417 Finley at 4.
- Society of Orthodox Jewish Scientists**
Holds a discussion on "The Fallibility of the Scientific Method" in 205 Harris.
- Society of Women Engineers**
Having a swimming party in the Pool Gym at 12:15.
- Youth Hostel Cycle Club**
Meets in 210 Klapper to plan trip to Vermont.

Liberal Arts Divide Engineers

(Continued from Page 1)

was chemical engineer Andrew Grove '60 who said that "well-rounded people cannot make great discoveries in a world as specialized as ours. I am in college in order to become as qualified an engineer as possible, and I don't want to waste time taking liberal arts courses."

He said that he would study liberal arts subjects which interested him after he finished college. Grove also said he felt the chemical engineering curriculum had been sacrificed to provide room for the electives.

Professor Schmidt said the introduction of electives did not adversely affect the technical part of the chemical engineering curriculum. By manipulating more than a dozen courses, room was made for the electives without sacrificing necessary engineering courses, he said.

Dean Allan agreed with Grove that engineers will not read only technical books later in life. The Dean said he believes very strongly that engineers will broaden their outlook after they

are graduated.

Several engineers now taking electives said it was refreshing to get a new viewpoint after spending three years in classes with persons similar to themselves.

Chemical Engineer Carol Cornwell '61, was pleased with the "terrific change of atmosphere" between North and South Campus. "I was almost shocked when I walked into my German class and saw more than one coed in the room," she said.

Fellowships

The Woodrow Wilson National Fellowship Foundation will award 1,000 fellowships for the academic year 1960-61 carrying a stipend of \$1500 for first-year graduate study.

Candidates must be nominated by a faculty member before October 31. Interested students should consult Dean Sherburne F. Barber (Liberal Arts) in 133 Shepard, or Prof. Michael Kraus (History) in 326 Wagner.

This is your last chance to reserve space for your Glorious Christmas Vacation at Miami Beach!

No More Reservations Will Be Accepted After October 30

Spend 10 Days at the

Fabulous Casablanca Hotel

Directly on the Ocean — The Fun Spot of Miami Beach
Leave the evening of Dec. 23 and return Jan. 2!

LUCKY STRIKE presents

Dear Dr. Frood:

Dr. Frood, Ph.T.T.

DR. FROOD'S MORAL OF THE MONTH

Things worth having are worth working for. For example: If you want a football letter, find a football player and ask him to write you one.

Dear Dr. Frood: I'm flunking everything but math. I get D in that. Help me.
(Name withheld by request)

Dear Withheld: Spend less time on math.

Dear Dr. Frood: I go steady with two girls—one in the dorm, one in the Theta house. Traveling between the two places is making a wreck of me. What to do?
Tired

Dear Tired: Get your girl to get your girl into her sorority.

Dear Dr. Frood: I am a 35-year-old freshman. Should I wear a beanie?
Worried

Dear Worried: If I were a 35-year-old freshman, I'd wear a mask.

Dear Dr. Frood: Nobody likes me. Girls despise me. Men can't stand me. Profs detest me. Dogs snap at my cuffs. What should I do?
Hated

Dear Hated: Don't ask me. I don't like you, either.

Dear Dr. Frood: I'm a non-conformist. But I smoke what everybody else smokes—Lucky Strike. How can I be different and still smoke Luckies?
I. M. Odd

Dear Mr. Odd: Light both ends of the Lucky and insert a straw into the middle. Sip the smoke through the straw and say "wildsville" after each puff.

DR. FROOD AND THE AMAZING NEW FILTER

I had occasion recently to study the remarkable "no smoke" filter made of solid lead. No matter how hard you puff, you get no smoke. Incidentally, a pack of these cigarettes weighs 2 pounds. Luckies weigh less... and you get smoke. The best.

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company — "Tobacco is our middle name"

Adelphi, Darkness Fall As Booters Win, 4-0

By Mike Katz

GARDEN CITY, L.I., October 28—The College's soccer team tried night ball here late today and found it a bit difficult without lights. Still, the booters managed to defeat Adelphi, 4-0.

The game, scheduled to start at 3:30, didn't get under way until a few minutes later because one of the officials arrived late.

By the time the game ended at 5:30, darkness masked the field on which twenty-two unidentifiable players were in search of the ball. For the last twelve minutes it was a farce, not soccer.

When the sun was out, however, the Beavers were up somewhere in the clouds. They were not the same team that ran RPI into the ground Saturday. In fact, they never got around to running the Panthers anywhere.

Adelphi Threatens Twice

For the first 31 minutes the game was scoreless. Then Heinz Minnerop tallied on a pass from Hugh Bobb. But it did not turn out to be a case of "once one goes in, they all follow." On the contrary, within a minute Adelphi twice threatened the Beaver goal.

At 14:30 of the second quarter, the Panthers' Bill Amato came in all alone on the Beaver goal. He faked a shot to the right and then sent the ball toward the left corner. But Lavender goalie Andre Houtkruyer wasn't fooled and made a lunging save.

A minute later, a shot trickled past the diving frame of the sophomore goaltender and appeared headed for the right side of the net. But Eloy Pereira, a halfback who started the season at for-

The Line Score

CCNY	0 2 0 2-4
Adelphi	0 0 0 0-0

ward, acted as an emergency goalie. Coming out of nowhere, he raced into the goal-mouth and kicked the ball out.

From then on, Adelphi was unable to mount an offensive. Occasionally the Panthers moved the ball deep into the College's territory only to have Pereira, and fullbacks Les Solney and Claude Spinosa send it back upfield.

Minnerop Scores Again

Just before the first half ended, Minnerop scored again for his eleventh goal of the season. Left-wing Marco Wachter took a shot in front of the Adelphi goal but the ball dribbled off his foot. Minnerop retrieved it and sent it past Panther goalie Ray Hill.

Leading 2-0 at the half, the Beavers expected to be the second-half club they have been in the past. They weren't.

In the third period neither team did anything in particular in the way of deep penetration. At 8:15 of the final quarter, Minnerop passed to Andy Soukas who booted the ball past Hill.

Ten minutes and no sun later, a high kick went towards Hill. He dropped it, Soukas picked it up, with his feet of course, and dribbled it into the unguarded net.

The booters, on the whole, were as unimpressive today as they had been impressive against RPI. There are a few explanations for this, though.

Today was the first time this season the Beavers played on a grass field, and they weren't used

to it. The field itself is much narrower than Lewisohn Stadium's and consequently the middle was clogged. Psychologically, there was a let-down after Saturday's victory over RPI. Meteorologically, the wind and the cold produced frozen feet which bothered the players, and frozen feet and lots of goals don't mix.

Then, of course, there was the light, or lack of it. At one point late in the game, a player yelled from the field to the sidelines: "Hey, give us some candles."

The booters' next game will be against Long Island University Saturday in Lewisohn Stadium at 11 . . . AM.

INSIDE RIGHT Andy Soukas scored two goals in final quarter against Adelphi.

Frosh Cagers Caught Short Teamwork Stressed In Drill

The College's freshman basketball squad, now in its third week of pre-season practice, will face a height disadvantage this year.

Coach Dave Polansky, who directed last year's frosh cagers to a fine 11-7 record, is now stressing ball control, court position and play-making during workouts in an attempt to compensate for the team's lack of height.

"We have to play smart basketball and use teamwork to the fullest extent," he said.

Of the twenty men who have come out for the team, the tallest prospect is Neil Kalt (6-3). Two former members of the Cardinal Hayes High School team, Mel Marshall and William Lom, have also shown promise during early drills, Polansky said.

The coach has divided the squad into two groups and so far has tentatively selected eleven men for the official team. The remaining vacancies will be filled within the next month.

The cagers' first scheduled game,

against Columbia's JV, will precede the varsity's opener against the Lions December 5 in Wadgate gym.

FROSH COACH Dave Polansky says cagers will face lack of height this season.
