Morgenthau to Speak Tom'w On Governor, Pickets, Valachi

United States Attorney Robert Morgenthau will address the College's Young Democrats tomorrow at 12:30 in 110 Wagner.

Mr. Morgenthau appeared at the college in October, 1962, when he was the Democratic gubernatorial candidate against Gov. Nelson Rockefeller. At that time he delivered a major policy address on the proposed educational program. According to Al Pomerantz '65, program chairman for the Young Democrats, Mr. Morgenthau will discuss:

- Gov. Rockefeller's bid for the Republican Presidential nomination.
- the recent picket for "Fair Day in Government Employment," which took place next to Mr. Morgenthau's Foley Square office.
- the investigation of mobster Joseph Valachi, who is now in New York City and under Mr. Morgenthau's office's jurisdiction.

According to Pomerantz, Mr. Morgenthau is not expected to discuss the Federal hearings on the (Continued on Page 3)

College May Get Federal Aid To Construct 2 New Buildings

By Bob Weisberg

The college may receive construction funds under the provisions of the college-aid bills recently passed by the House and Senate.

A \$1,895,000,000 bill passed by the Senate Monday provides for construction of facilities for the sciences, engineering, and libraries. The House passed a \$1,195,000,000 bill on August 14, providing grants for all academic facilities except those used for religious teaching.

The Senate bill includes a five-year program of grants and loans, while the house bill is a three-year program.

The two bills now go to a joint House-Senate conference where a single version will be authorized and sent to President Kennedy, According to Dean of Admin-

SC to Weigh Year Terms For Officers

By Eva Hellmann

A proposal calling for one-year terms for Student Government officers highlights an SG reorganization plan to be presented to Student Council tonight.

Under the new plan, the president, vice-president, secretary, and treasurer would be chosen for one-year terms instead of the present one-semester term. In addition, three vice-presidents, elected in school-wide elections for one-year terms, would assume the functions of the four SC committee chairmen now chosen by council.

The reorganization proposal was originated by Student Government President Ira Bloom '64, SG Vice-President Girard Pessis '64, and Howard Simon '65, special assistant to the president.

According to Bloom, the plan will "result in a much more responsive SG where the officers will be able to both formulate programs and carry them through." Simon said the proposal would enable SG to be "program oriented" as opposed to "issue oriented" under the one-term system.

Under the proposal, the three vice-presidents would head the following committees: educational affairs, campus affairs, and community affairs. The three committees would absorb the present functions of the civil liberties, internal affairs, academic affairs, and school affairs committees.

Attendance at council meetings would be optional for the president and treasurer. According to Bloom, this would give the president (Continued on Page 3)

An Enrollment Proposal

By Joe Berger

The political science department last Thursday proposed an enrollment crisis plan that would allow students to choose among social science courses now prescribed for the B.A. degree.

According to Professor Samuel Hendel (Political Science), chair-

man of the departmental subcommittee that developed the proposal, it recommends that the basic political science course be valued at four credits instead of the present three credits. The extra credit would be used for a conference hour with the instructor to discuss additional readings and papers.

The plan, Professor Hendel says, could not be effective unless the other social science departments change the value of their basic courses from three to four credits. The student would then choose among the basic social science courses. The total number of required credits would remain about the same as they are now, but the student would earn the credits in fewer courses.

The plan would lead to a large increase in available classroom space because a student's total classroom hours would be decreased as much as 25%, Professor Hendel maintains.

The department plan was a response to President Gallagher's October 3 speech, in which he proposed various measures enabling the College to increase enrollment by 1100 freshmen next September.

At present, a student specializing in languages or literature is required to take five basic social science courses totalling fifteen credits. A student specializing in any of the social sciences is required to take nine basic courses totalling 27 credits.

Students majoring in languages

or literature are now required to take the following three-credit courses: Economics 1, History 1 and 2, Philosophy 1, and Political Science 1. Social science majors must take Economics 101 and 102 in place of 1, and also Psychology 1, Sociology 1, and History 4 or 5 in addition to the above courses.

If the plan is applied to all social science departments, a language or literature major would take only four basic courses totalling 16 credits and a social science major would take seven basic courses totalling 28 credits.

The chairman of the history and economics departments yesterday voiced opposition to the political science department proposal.

Prof. Joseph Wisan (Chairman, (Continued on Page 3)

Projector Views World of Atom

What happens when a proton collides with an anti-proton? They form Pi-mesons, of course. Next question, what does one do with mesons? That's right, he sees how they interact.

No, the above questions are not included in a Physics 7 exam; they are problems which three Physics professors here are trying to solve with a "Precision Measuring Projector," shown above as it was carried to Shepard Hall on Monday.

The \$30,000 machine measures length and curvature of the paths of Pi-mesons, atomic-sized particles with a maximum life span of one-billionth of a second. Photographs of these particles taken at Brookhaven Laboratories are placed into the machine and subsequent data is produced on an adjoining ticker tape.

It seems that charged particles leave bubbles. So the Brookhaven scientists reflect light on the bubbles, and photographs of them are sent to the College for more thorough investigation in the projector.

The machine is fundamental to this research project formed by Physics Professors Alvin Bachman, Philip Baumel, and Robert M. J. Lea, principal investigator. The project is supported by a \$30,000 grant given by the National Science Foundation.

The machine, "the equivalent of a fancy microscope," according to Professor Baumwell, weighs 1800 pounds, and measures seven feet long, four feet wide, and about seven feet high. It will not be completely installed for several weeks, thus causing a delay in the start of research (Continued on Page 3)

SAB to Consider 2 Reports On Its Functions and Future

The Student Activities Board will review tomorrow night two reports recommending changes in its structure.

One report, prepared by SAB Chairman Pete Scola '64 and Vice-chairman Barry Dombor '64, requests changes in the federation system and method of appointing federation delegates to the Board.

The other report, submitted last term by Larry Steinhauer '64, calls for the abolition of the SAB and transfer of its functions to other Student Government bodies.

The Board is free to accept or reject either report. Scola said that delegates will be allowed several weeks to consider the merits of both before a vote is called.

Dombor's report suggests that the three largest federations, Arts, Humanities, and Social Science; Political and Social Action; and Religious and Cultural, be subdivided into seven separate groups.

It also recommends that SAB committees be chaired by "voluntary members." At present, the chairman's position is filled by federation delegates to the SAB. According to Scola, the delegates "often have little experience or (Continued on Page 3)

interest in the particular committees, whereas the members would."

The report issued by Steinhauer's committee last term declared that the entire SAB system is untenable. It suggested the Student (Continued on Page 3)

IRA BLOOM said the SG Executive committee will consider changes in the SAB structure.

Sense and Sensibility

To nobody's surprise, the celebrated school crush, whose coming has filled the education pages of the nation's newspapers for the past decade, is nearly on us. And it appears that the City University's only preparation for the huge number of college candidates that will soon be pounding on its doors is an awareness that they are coming and an educated guess of how many of them there will be. Our facilities have not been altered to meet the increased demands. Our buildings are no larger and our teachers are not more numerous. So we have been forced to consider suggestions which, in most instances, merit consideration only because of the peculiar situation in which we find ourselves.

A consensus of responsible college opinion indicates that the inconvenience of a longer day and a longer week will be accepted here. Other suggestions involving curriculum and pedagogical changes must be considered more carefully. But it is obvious that the College will be going more than half way to solve a crisis that is not of its making.

But it must be realized that the College, without increased aid, cannot do much. We can only strain our facilities so far without breaking them.

On Monday, the Board of Higher Education asked for help—\$7-million to be exact. This is not exorbitant. For a university that has received the short end of budgets for many years, and yet has been expected to offer a fine education, \$7-million is not much of a bone. For the enrollment of an additional 5,000 freshmen, \$7-million is not an excess.

It must be realized by the people of the City that if they wish their children to go to the University, they must pay for it. The University cannot be expected to do the impossible. For many more students, at least this petty sum of money must be found. We shall make no suggestions where to find the cash (custodians, you may breathe freely). We merely say it must be found. As coffee merchant John Ar buckle said, "You get what you pay for."

From the Nation's Capital

The Senate's recent passage of a college-aid construction bill may have important ramifications for the College. Under the Senate plan, the new science and physical education building may be built with the aid of federal funds. The House's plan, if adopted, would also provide funds for a humanities building.

There is many a slip between Capitol Hill and the President's desk. The bill's fate, especially as it becomes entangled in the thickets of constitutional law, is a precarious one. Therefore, it is most important for all supporters of federal aid to colleges to redouble their efforts.

The College has a vital stake in the bill. Our difficulties in obtaining funds from the city and state are well known. Their generosity is unlikely to increase spectacularly in the near future. Thus, the prospect of federal aid is very attractive. And in the midst of an enrollment crisis, it may be indispensable.

Greek Life

Tell me, Muse, the tale of the god-like Zebes, Phi Eps, Sigma Alpha Mus and others of the Hellenes. Relate to me of how they will test their mighty hearts and skills in the Olympic chariot races tomorrow in Lewisohn Stadium. Tell me of the beauty of their fair women which fleet-footed Paris shall judge in a "Miss Greek" contest. And finally, O Muse, daughter of aegis-bearing Zeus, speak to me of their Saturnalia dinner-dance at the Moraco Surf Club on November 23 (Tickets are \$12 the couple).

Yes, tell me of the doings of the wide-ranging Greeks. May mighty Zeus and the Fates treat them kindly.

Club Notes

All clubs meet tomorrow at 12:30 unless otherwise indicated.

A.I.Ch.E.

Will present Mr. R. R. Maddocks of the American Cyanamid Co. speaking on "Process Engineering in Chemical Industries," in 103 Harris.

A.I.M.E.

Will meet at 12 in 305 Shepard. **Astronomical Society** Will meet at 12:15 in 16 Shepard. Members who want copies of Mr. Grossman's eclipse slides must bring at least a 50% deposit.

AUSA

Will sponsor the New York State Conservation Dept. Hunter Safety Program in 348 Finley at 12. All are welcome.

Baskerville Chemistry Society

Will hold a student softball game today at 12:15 on the South Campus lawn. All members are invited.

BBC

Will meet in 332 Finley. Attendance is compulsory.

Biological Society

Will present Dr. Ruth Sager of Columbia University, speaking on "What are Non-Chromosomal Genes?" in 306 Shepard.

Caduceus Society

Will present Dr. H. Jacobziner, Assistant Commissioner of Public Health, speaking on "Public Health" in 315 Shepard.

Chess Club

Will officially start its tournament in 330 Finley. All those interested in playing on the Chess Team should take part in the tournament.

Christian Association

"The Student 'Y'" on Campus" will sponsor a "Folk Fest" from 12-2 in 101 Finley.

Class of '65

Class Council will meet in 304 Finley.

CORE

Will meet at 4:00 in 212 Finley.

Dramsoc

Will meet in 428 Finley. There will be a reading of an original play and improvisations.

Economics Society

Will present Dean H. Juris of the University of Chicago Graduate School of Business, who will speak on Career and Scholarship Opportunities in 107 Wagner.

English Society

Professor Elton (English) will lead a discussion on Modern Poetry in 105 Mott.

Friends of Synanon & Psychology Society

Will present Mr. Richard Korn, a noted sociologist, who will speak on "Professionalism and Synanon."

Geological Society

Will present Asst. Prof. M. B. Rosalsky (Geology Dept.), who will speak on Volcanoes and Vulcanism in 307 Shepard.

Government and Law Society

Will present Prof. Ivo Duchacek (Political Science) speaking on the statements of the 3rd Secretary of the Russian Embassy in Washington in 217 Finley.

Hillel

Will present Rabbi Ungar, who will speak on "Jewish Responsibility in the Integration Crisis" at 475 W. 140 St.

History Society

Will present Prof. Dante Puzzo (History), who will speak on "Communism in the Spanish Civil War." in 105 Wagner.

Italian Club

Will present Dr. Nicholas Millella (Romance Languages), in 101 Downer.

Le Cercle Francais

Le Cercle Francais du Jour vous invite a voir des films: Cohen 303, 12:30-jeudi.

Mercury

Will hold an important meeting in 332 Finley 12-2. The editor promises to attend.

Newman Club

Will present Miss Lillian M. Richards, Director of Social Service of the Hospital Department speaking on "Welfare-Fact and Fiction," Friday at 4 in Finley 217.

Outdoor Club

Will meet in 214 Shepard to discuss weekend activities and spelunking trip.

Photo Club

Will meet in 308 Harris to discuss upcoming events and schoolwide contest.

Philosophical Discussion Group

Will present Mr. Shtacter (Philosophy) who will speak on "The Concept of Reality in Modern Continental Philosophy" in 302 Downer.

Physics Society

Will hear Mr. D. Shelnusky (Physics) speak on "Symmetry and Physical Theory" in 105 Shepard.

Sholem Aleichim Yiddish Club

Will hear Professor Samuel Hensel (Political Science) speak on the situation of Soviet Jewry at 12:15 in 225 Wagner.

Sigma Alpha

Meets today at 4:15 in 212 Finley. Coffee will be served at 3:30.

SPU

Will present Prof. Harry Lustig (Physics), who will speak on "The Test Ban Treaty and its After-effects" and the peace film "The Deadly Harvest. All students are urged to attend in 212 Finley.

WBAl

Will present three U.S. gov't films on atomic bombings including the remains of Hiroshima and Nagasaki today in 301 Compton and tomorrow at 3:00 in 217 Finley.

Young Conservative Club

Will present Mr. M. Bierman, the press Attache of the Union of South Africa Consulate, who will speak on "Apartheid," in 440 Finley.

Young Democrats

Will present U.S. Attorney Robert Morgenthau, former Democratic Candidate for Governor of New York in 106 Wagner.

Enrollment

(Continued from Page 1)
 (Continued from Page 1) said that "prescribed courses should be judged on the basis of fundamental students' needs rather than in terms of efficiency. It is unfair to the student to make his own decision choosing the social sciences," the professor said. Professor Wisan, however, said favored an examination "of all courses should be required. Think every required course would be justified in terms of the student need," he said. Prof. Henry Villard (Chairman, Economics) opposed the plan because students would not be required to take all the basic social science courses. "A student should have a broad knowledge of all the fields in the social sciences," he wants to get a true education," Professor Villard said. The professor said the plan was worse than the indiscriminate of the lecture system." He said that he would rather institute a three-credit course with classroom hours and one conference hour, a proposal which is believed would also increase available classroom space. The Philosophy Department reported "exploring" Professor Villard's plan, according to Professor Phillip Weiner (Chairman, Philosophy).

Morgenthau

Aid

(Continued from Page 1)
 (Continued from Page 1) Senator Leslie Engler, the Senate version, if finally adopted, may contribute funds to the construction of the College's new science and physical education building, to be erected on Jasper Oval.

"We should get some of it, but the final authority on distribution of the funds will probably be the state," Dean Engler said.

If the House version becomes a law, the College might receive a grant for the new humanities building on the south campus, in addition to aid for the science building. However, this is not definite, Dean Engler said, since the College has not yet received planning money for the humanities building.

Although both bills provide for grants and loans to church-affiliated colleges, the Senate version would permit any taxpayer to bring civil action challenging the constitutionality of giving funds to any of the institutions of higher learning. This provision reflected the legislators' concern about questions of separation of church and state.

The Senate bill would grant \$900 million of the total to undergraduate and technical institutions, \$145 million to graduate schools, \$250 million to public community colleges, and would loan \$600 million to both undergraduate and graduate institutions.

Student Council

(Continued from Page 1)
 (Continued from Page 1) "free time which he can devote to other projects."

Adoption of the proposals would necessitate a constitutional amendment. If council approves the plan, it will be placed on the ballot as a referendum in the December elections. Lacking council approval, the resolution's proponents must gather a petition containing the signatures of 10 per cent of the

student body (931) in order to place the resolution on the ballot.

Bloom declined to speculate on his proposals' chances for passage by council. However, Simon said he expects "stiff opposition" to the reorganization plan.

The resolution containing the suggested changes will be accompanied by supporting letters from Dr. Willard Blaesser, Dean of Students, and Mr. Irwin Brownstein (Student Life).

Student Government Enrollment Poll

If President Gallagher's proposals are adopted, 3500 freshmen will enter the College next September. This represents an increase of 1,000 freshmen over this September's enrollment. Your help in filling out this questionnaire could supply some of the answers needed to alleviate the enrollment problem. If you have completed the questionnaire, please tear it out and deposit it in one of the collection boxes in the S.G. office, 151 Finley, the Information Center, 152 Finley, at the desk at Knittle Lounge, or at the collection box in Lincoln Corridor. Thank you.

Circle Answers

Do you feel that the number of students in recitation sections should be increased? YES NO

Do you feel that the number of students in labs should be increased? YES NO

Do you feel that the number of students in lecture sections should be increased? YES NO

Would you favor the substitution of a lecture section in place of a recitation section, resulting in one lecture hour plus two recitation hours instead of the present system of three recitation hours? YES NO

Would you be in favor of an extended school day in order to solve the enrollment problem? YES NO

Would you be in favor of an additional school day in order to solve the enrollment problem? YES NO

What do you feel are the best workable solutions for the enrollment problem? Below are listed several possible solutions. Please circle the ones that you think might be able to solve the problem of enrollment.

- A) Doing away with the Thursday 12-2 break
- B) Establishing temporary buildings
- C) Placing tighter academic demands on the student, including suspension if the student falls below C— average.
- D) Shortening certain multi-term course sequences and utilizing those empty rooms for other subjects [Please specify course.]
- E) Other (please be specific)

What is your official class? e.g. 803, 502, etc.!

What is your name and telephone number? (This information is for validation purposes only. After the study has been completed this information will be destroyed).

Beaver Coed Learned to Break Tape; Now She's Trying to Break Records

By Ines Martins

A promising coed trackster at the College shocked everyone last March by the manner in which she won her first race. While competing in the 60-yard dash, Valerie Carter, who didn't know better, tried to run around the tape instead of through it.

But she learned quickly. Since then, the 21 year-old junior has won over fifty medals and nine trophies, and is the Women's Eastern State Champion in the 200 (25.7) and 400 (59.8) meter events.

A latecomer to the track and field world, Valerie is "still in the process of exploring the true pleasure of running." Before coming to the College, she ran only when playing street games where, she said: "there were usually three girls and a million boys."

While originally going out for women's basketball, Valerie was spotted by Mrs. Betty Castro (Phys. Ed.) who urged her to meet

VALERIE CARTER

love to teach and would also like to be a doctor. "I like knowing more about life in general," she said. To this end, she admits that being a track star has helped. It has enabled her to meet young people from all over the United States and to make many new friends.

Valerie doesn't know where all this will take her. But after her "first real running summer" where she captured the top award in the Junior Nationals, the Eastern State Championships, and the AAU Dairy meet, she modestly admitted that people think she has a good chance of securing the national championship and of running in the Olympic pre-trials next year. "But it takes a lot of good, hard work—and no parties," she said.

Her immediate plans are to enter the women's indoor competition at Madison Square Garden in December, thereby shying away from the annual outdoor Polar Bear Meet because "it might hurt my legs for indoors."

Although she is now deeply immersed in the sports world, Valerie is still amazed at her earlier induction and subsequent enthusiasm because, at first, things didn't seem to be in her favor.

"In the second race I ever won," she said, "the tape burned my arm because they didn't let it down." Reflecting on this mishap, she said, smiling, "But I guess the medal I won encouraged me to continue."

Sandy Pashkin, who was then the only significant woman runner at the College.

"I thought, at first, that Sandy was some kind of nut," the striking coed remarked. "I couldn't see any rhyme or reason to running."

Now, however, she feels that there is not enough inspiration in the United States for women to compete in track, except from a few small minority groups. "In Europe," she said, "the women are encouraged to enter into track competition."

Valerie, a biology major, would

Met Round-up

With more than a third of the soccer season completed, two teams—Adelphi and Pratt—remain undefeated in the Met Conference.

The surprising Panthers, led by forwards Constantinos Dodos and Alejandro Ponce, have averaged nearly six goals a game in their drive for their first Met championship. Adelphi finished in a sixth place tie with the College last year, and were not expected to be contenders this season.

The Pratt booters, on the other hand, are stressing defense (only one goal allowed in three games) in their quest for a fourth league title.

With a split in two league games, the Beaver booters are locked in a three way tie for fourth place with Queens and Kings Point.

Met Standings

	W	L	T	P	GF	GA
Adelphi	3	0	0	6	17	6
Pratt	3	0	0	6	12	1
